[How to Become a Buddha in 5 Weeks](#) - Giulio Cesare Giacobbe 2009

50 More Ways to Soothe Yourself Without Food - Susan Albers 2015-12-01

In this much-anticipated follow-up to *50 Ways to Soothe Yourself Without Food*, renowned nutrition expert and New York Times best-selling author of *Eat Q*, Susan Albers delivers fifty more highly effective ways to help you soothe yourself without eating—leading to a healthier, happier life! If you're an emotional overeater, you may turn to food to cope with stress and sadness, enhance joy, and bring a sense of comfort. But, over time, overeating can cause weight gain, heart disease, diabetes, and many other health problems. In *50 More Ways to Soothe Yourself Without Food*, you'll find fifty more mindful and healthy activities to help you replace your need to overeat. Based in popular mindfulness practices, this book will show you how to slow down and be present during mealtime so that you end up making healthier choices. In addition, the activities in the book—such as yoga, aromatherapy, and breathing exercises—will help you gain a greater overall sense of well-being and appreciation for your body. If you're ready to stop using food as an emotional crutch, and start feeling healthy, happy, and truly fulfilled, this book offers fifty more ways!

The Tao of Natural Breathing - Dennis Lewis 2016-08-01

Take a life-affirming journey with Dennis Lewis into the physiological, psychological, and

spiritual experience of breathing. A long-time student of Advaita Vedanta, Taoism, and the Gurdjieff Work, he presents a comprehensive approach to understanding the mechanics of the breath, as well as the relationship of breath, emotions, and energy. Best of all, he offers guided explorations of the Whole-Body Breath, the Spacious Breath, the Smiling Breath, the Vital Breath, and more. These practices will improve your health, increase your energy, and support your quest for inner growth.

Everyday Mindfulness for OCD - Jon Hershfield 2017-10-01

"The most empowering OCD book I have ever read." —Reid Wilson, PhD, author of *Stopping the Noise in Your Head* Don't just survive—thrive. In *Everyday Mindfulness for OCD*, two experts in obsessive-compulsive disorder (OCD) offer a blend of mindfulness, humor, and self-compassion to help you stop dwelling on what's wrong and start enhancing what's right—leading to a more joyful life. If you've been diagnosed with OCD, you already understand how your obsessive thoughts, compulsive behavior, and need for rituals can interfere with everyday life. Maybe you've already undergone therapy or are in the midst of working with a therapist. It's important for you to know that life doesn't end with an OCD diagnosis. In fact, it's possible to not only live with the disorder, but also live joyfully. This practical and accessible guide will show you how. In *Everyday Mindfulness for OCD*, you'll discover how you can stay one step ahead of your OCD. You'll learn about the world of

mindfulness, and how living in the present moment non-judgmentally is so important when you have OCD. You'll also explore the concept of self-compassion—what it is, what it isn't, how to use it, and why people with OCD benefit from it. Finally, you'll discover daily games, tips, and tricks for outsmarting your OCD, meditations and mindfulness exercises, and much, much more. Living with OCD is challenging—but it doesn't have to define you. If you're tired of focusing on how "hard" living with OCD is and are looking for fun ways to make the most of your unique self, this book will be a breath of fresh air.

Rude Awakenings - Ajahn Sucitto 2006

Half down-and-dirty adventure and half inspirational memoir, this title documents an unusual pilgrimage taken by earthy scientist Nick Scott and fastidious Buddhist monk Ajahn Sucitto, who together retraced the Buddha's footsteps through India.

A Triune Concept of the Brain and Behaviour - Paul D. MacLean 1973

Guilt and Depression - León Grinberg 1992

[Practicing the Power of Now](#) - Eckart Tolle
2010-09-03

New York Times bestselling author Eckhart Tolle — A key to happiness is living in the now
Practice The Power of Now: If you, like many others, have benefited from the transformative experience of reading The Power of Now, you will want to own and read Practicing the Power of Now. Eckhart Tolle: Eckhart Tolle, a spiritual teacher and author who was born in Germany and educated at the Universities of London and Cambridge, is rapidly emerging as one of the world's most inspiring spiritual teachers. His views go beyond any particular religion, doctrine, or guru. In The Power of Now and his subsequent book Practicing the Power of Now, Eckhart shares the enlightenment he himself experienced after a profound inner transformation radically changed the course of his life. Your path to enlightenment: Practicing the Power of Now extracts the essence from Eckhart's teachings in his New York Times bestseller, The Power of Now (translated into 33 languages). Practicing the Power of Now shows us how to free ourselves from "enslavement to

the mind." The aim is to be able to enter into and sustain an awakened state of consciousness throughout everyday life. Through meditations and simple techniques, Eckhart shows us how to quiet our thoughts, see the world in the present moment, and find a path to "a life of grace, ease, and lightness." The next step in human evolution: Eckhart's profound yet simple teachings have already helped countless people throughout the world find inner peace and greater fulfillment in their lives. At the core of the teachings lies the transformation of consciousness, a spiritual awakening that he sees as the next step in human evolution. An essential aspect of this awakening involves transcending our ego-based state of consciousness. This is a prerequisite not only for personal happiness but also for the ending of violence on our planet. Readers of other transformational self-help books such as The Four Agreements, The Miracle Morning, Braving the Wilderness, and The Book of Joy will want to read Practicing the Power of Now.

[The Scent of the Moon](#) - Selene Calloni Williams
2016-07-18T13:35:00+02:00

Kazimir, Svetlana and Anastasia are real characters. They live in a very remote part of the Siberian steppe. Kazimir is a white shaman with extraordinary power, a healer whose fame has reached as far as Kazakhstan, Mongolia and Moscow. Svetlana is a black shaman, able to travel through the underworld, the realm of the invisible, of ancestors, of dreams, of the soul, and take others with her, on extraordinary shamanic voyages. Anastasiya, Svetlana's niece, is one of the very few shamans in the world who masters the art of both white and black shamanism. By whoever knows her, or even just heard of her, she is considered a reincarnation of the Princess of Altay. Selene Calloni Williams and her son Michelangelo have met these three shamans by chance during one of their extraordinary research trips, while attempting to reach the burial site of the Princess of Altay. To gain the three shamans' trust, Selene and Michelangelo have visited them on several occasions since, even in winter when the steppe is freezes at minus 40 degrees. One day, Svetlana decided to entrust them with a "tale of power". A "tale of power" has the ability of communicating images containing new

possibilities of thought and action. In this world everything is imagination and nothing which hasn't been imagined before can happen. For example, how could the first man have hunted the first mammoth, or the first tyrannosaurus have devoured the first velociraptor, if within instinct the image of hunt hadn't existed? In order for behaviour to exist there always must be a guiding image. These are the images which the ancients addressed as gods and which psychoanalysts define as archetypes: the original forms of all experiences. Shamans are able to converse with gods. They are bards, storytellers, they know tales able to bring images into existence, create possibilities which were previously unexplored, and thus can solve otherwise insurmountable problems. These are not just any stories; they're "tales of power". This book tells the story of the passionate love which bonds a boy and a girl, an old man and an old woman, tells of eagles and underworlds, describes the "shamanic journey" and the triumph of love over fear and death. It is not just any story; it shares active secrets, treasures, like magic diamonds which enter the body between one page and the other, between an adventure and the other. This book can be read at the blink of an eye, the same blink with which the great spirit of the Black Eagle, the lord of the dead, will carry you down to the underworld, to then take you back, changed forever, to your life: it's magic, it's poetry.

The Mother Mantra - Selene Calloni Williams
2019-01-08

An initiate's guide to the healing practices, spiritual exercises, and secret rites of the Mother Mantra tradition • Explains the practice of the Mother Mantra, which allows us to overcome subconscious programming, release our fears, and awaken to the dream nature of reality • Includes instructions for the practice of the Egyptian mantra to attract wealth and abundance and the Mystical Marriage Mantra for transformation and rebirth • Presents five spiritual rituals that can be incorporated into daily life to reestablish the universal balance between humanity and the divine Hidden at the heart of nearly all spiritual and esoteric traditions lies the powerful teachings of the Mother Mantra. Its initiates have preserved its consciousness-expanding techniques for

millennia. Originating in the ancient practice of shamanic yoga, this tradition allows us to perceive the full complexity of reality. It helps us see both the visible and the invisible, moving beyond the consciousness of duality that limits us to only the material world. Operating in this heightened state of non-ordinary consciousness, we can see beyond our subconscious programming and behavior patterns and understand our possibilities and powers. By removing all fear, it allows you to love yourself exactly as you are. In this spiritual and philosophical guide, initiate Selene Calloni Williams shares the healing practices and spiritual exercises of the Mother Mantra tradition. She explains how these practices bypass the thinking mind to access our higher spiritual consciousness, allowing us to awaken to the dream nature of reality and release us from all fear. She details the exercises and practices of the four-part Mother Mantra: The first series, which dissolves the constructs of the ego; the second, which invokes ancient spirits and deities for their aid in this endeavor; the third, where we experience a divine androgynous tantric union to transcend sexual identity and spiritually fuse with the divine; and the fourth, where the first three rituals are combined to unlock an expanded state of consciousness and a true seeing of the complexity of both the visible and invisible worlds. The author also describes the practice of the Egyptian mantra, a soul-making ceremony that unites the initiate with the Chthonian realms and attracts wealth and abundance, and the Mystical Marriage Mantra, which opens a path to authentic transformation and rebirth. Additionally, Williams presents five spiritual rituals, including yogic poses and exercises, that can be incorporated into daily life to allow divine communication through the chakras, awaken the mind and body from the aging process, and reestablish the universal balance between humanity and the divine.

Mindfulness and Mental Health - Chris Mace
2007-09-12

Being mindful can help people feel calmer and more fully alive. Mindfulness and Mental Health examines other effects it can also have and presents a significant new model of how mindful awareness may influence different forms of mental suffering. The book assesses current

understandings of what mindfulness is, what it leads to, and how and when it can help. It looks at the roots and significance of mindfulness in Buddhist psychology and at the strengths and limitations of recent scientific investigations. A survey of relationships between mindfulness practice and established forms of psychotherapy introduces evaluations of recent clinical work where mindfulness has been used with a wide range of psychological disorders. As well as considering current 'mindfulness-based' therapies, future directions for the development of new techniques, their selection, how they are used and implications for professional training are discussed. Finally, mindfulness' future contribution to positive mental health is examined with reference to vulnerability to illness, adaptation and the flourishing of hidden capabilities. As a cogent summary of the field that addresses many key questions, Mindfulness and Mental Health is likely to help therapists from all professional backgrounds in getting to grips with developments that are becoming too significant to ignore.

Psychiatry, Psychoanalysis, and the New Biology of Mind - Eric R. Kandel 2008-05-20

Brought together for the first time in a single volume, these eight important and fascinating essays by Nobel Prize-winning psychiatrist Eric Kandel provide a breakthrough perspective on how biology has influenced modern psychiatric thought. Complete with commentaries by experts in the field, Psychiatry, Psychoanalysis, and the New Biology of Mind reflects the author's evolving view of how biology has revolutionized psychiatry and psychology and how potentially could alter modern psychoanalytic thought. The author's unique perspective on both psychoanalysis and biological research has led to breakthroughs in our thinking about neurobiology, psychiatry, and psychoanalysis -- all driven by the central idea that a fuller understanding of the biological processes of learning and memory can illuminate our understanding of behavior and its disorders. These wonderful essays cover the mechanisms of psychotherapy and medications, showing that both work at the same level of neural circuits and synapses, and the implications of neurobiological research for psychotherapy; the ability to detect functional changes in the brain

after psychotherapy, which enables us, for the first time, to objectively evaluate the effects of psychotherapy on individual patients; the need for animal models of mental disorders; for example, learned fear, to show how molecules and cellular mechanisms for learning and memory can be combined in various ways to produce a range of adaptive and maladaptive behaviors; the unification of behavioral psychology, cognitive psychology, neuroscience, and molecular biology into the new science of the mind, charted in two seminal reports on neurobiology and molecular biology given in 1983 and 2000; the critical role of synapses and synaptic strength in both short- and long-term learning; the biological and social implications of the mapping of the human genome for medicine in general and for psychiatry and mental health in particular; The author concludes by calling for a revolution in psychiatry, one that can use the power of biology and cognitive psychology to treat the many mentally ill persons who do not benefit from drug therapy. Fascinating reading for psychiatrists, psychoanalysts, social workers, residents in psychiatry, and trainees in psychoanalysis, Psychiatry, Psychoanalysis, and the New Biology of Mind records with elegant precision the monumental changes taking place in psychiatric thinking. It is an invaluable reference work and a treasured resource for thinking about the future.

Depressive Rumination - Costas Papageorgiou 2004-02-06

Rumination (recyclic negative thinking), is now recognised as important in the development, maintenance and relapse of recurrence of depression. For instance, rumination has been found to elevate, perpetuate and exacerbate depressed mood, predict future episodes of depression, and delay recovery during cognitive therapy. Cognitive therapy is one of the most effective treatments for depression. However, depressive relapse and recurrence following cognitive therapy continue to be a significant problem. An understanding of the psychological processes which contribute to relapse and recurrence may guide the development of more effective interventions. This is a major contribution to the study and treatment of depression which reviews a large body of research on rumination and cognitive processes,

in depression and related disorders, with a focus on the implications of this knowledge for treatment and clinical management of these disorders. * First book on rumination in depressive and emotional disorders *

Contributors are the leaders in the field * First editor is a rising researcher and clinician with specialist interest in depression, and second editor is world renowned for his work on cognitive therapy of emotional disorders

The Life of Shabkar - 2001-02-06

The Life of Shabkar has long been recognized by Tibetans as one of the masterworks of their religious heritage. Shabkar Tsogdruk Rangdrol devoted himself to many years of meditation in solitary retreat after his inspired youth and early training in the province of Amdo under the guidance of several extraordinary Buddhist masters. With determination and courage, he mastered the highest and most esoteric practices of the Tibetan tradition of the Great Perfection. He then wandered far and wide over the Himalayan region expressing his realization. Shabkar's autobiography vividly reflects the values and visionary imagery of Tibetan Buddhism, as well as the social and cultural life of early nineteenth-century Tibet.

Choosing Futures - Nicholas Foskett 2002-11

Choosing Futures offers a wide ranging perspective on how young people, and their parents, make choices as they travel through a lifetime of education and training.

Buddha Mind, Buddha Body - Thich Nhat Hanh 2008-11

Run - Roberto Di Sante

2020-11-09T00:00:00+01:00

A man falls from the fourth floor. It is the only choice he has left to stop suffering. As he falls he announces his last wish, but then his body freezes a few centimetres above the ground. A thread of light descends from above him, he clings to it, and tries to escape from the dark well of depression that has swallowed him. Aldo Amedei is a successful journalist who has lost everything, even his dreams. The past is regret, the present is populated by monsters and ghosts, but he tries to follow that thread of light, that crazy desire that kept him alive, by running the New York marathon. He doesn't even know why he thought of it; after all, he is a man who takes

his car to drive a hundred metres. He starts running, like an escaped prisoner hunted by his nightmares. He falls, he gets up, he falls again and gets back on his feet. And each time it hurts more and more. But he doesn't let go. For love, and with the love of Teresa, his young partner. Spitting out his soul along streets full of toil, angels and vultures, he comes back to life, to passion and to dreams. He's helped by a doctor, a unexpected coach and a grandson even crazier than himself. He becomes another person, embedding people into his heart, along with laughter, surprises and new emotions. But his enemies don't give up, they chase him, determined to bring him back into the black well of depression. There's everything still to play for, as in the last challenge, between life and death: the 42 kilometres and 195 metres of the New York marathon. Against the wind and against everything. From Hell to Central Park.

Shinrin-yoku. L'immersione nei boschi. Il rituale giapponese per liberarsi dall'ansia e dallo stress - Selene Calloni Williams 2018

Meditation for Busy People - Osho 2014-10-20

Meditation for Busy People offers simple strategies to reduce tension, minimize chronic stress, and quickly relax and unwind. Nobody needs meditation more than people who have no time to meditate. These busy people may have tried meditation but given it up, as it seems so difficult to integrate into a hectic lifestyle. Most traditional meditation techniques were developed thousands of years ago for people living a very different lifestyle than today. Few people today find it easy to just sit down and relax. Meditation for Busy People is filled with methods that can actually be integrated into everyday life. A morning commute becomes a centering exercise, and the street noises outside an apartment window in the city become an aid rather than a distraction to finding the silent space within. Both active and passive meditation techniques are covered, and the aim of all the techniques is to teach the practitioner how to find the stillness in the storm of everyday life. Many methods are specially designed to be integrated into the reader's everyday routines, so that they soon can tackle even the most hectic day with an attitude of relaxed calm and playfulness.

Open the Door to Happiness - Rui Jiang
2021-11-11

Winter Blues - Norman E. Rosenthal
2012-01-01

Presents information on seasonal affective disorder, describing its causes, symptoms, and such treatment options as light therapy, medication, psychotherapy, exercise, and meditation.

Mindfulness for Creativity - Danny Penman
2021-03-30

Work deadlines, to-do lists, family commitments, pressure to perform... Our frantic lives demand so much from us that we can often feel locked into a cycle of frustration, anxiety and stress, unable to tackle the tasks before us or see a way out of our habitual ways of thinking and doing things. Yet there is a way out. The simple mindfulness techniques at the heart of this book can help us lead a more creative and productive life - one that is isn't governed by the chaotic pace of life. They also dissolve anxiety, stress and depression while enhancing mental resilience. The four week programme takes just 10-20 minutes per day. The easy-to-follow programme works by soothing and clearing your mind, allowing innovative ideas to take form and crystallise. This helps you to spontaneously 'see' the solution to a problem, to conjure up new ideas, or to create works that have true insight and flair. The programme helps build the courage necessary for you to follow your ideas wherever they should lead - and the resilience to cope with any setbacks. It will help your mind work more effectively so that you can live more intuitively and have the inner confidence to drive your ideas forward. The accompanying download link contains 6 meditations that you can use to build an ongoing practice, mixing and matching meditations to suit your circumstances

Needfinding - Dev Patnaik 2017-07-19

For over fifty years, Needfinding has been one of the core classes in the design program at Stanford University. Its premise is that by studying the world around us, we can get a better understanding of what people need, and use those insights to create meaningful new products and services. Needfinding draws upon theory and methods from anthropology, psychology, engineering and design planning to

better equip aspiring design researchers. Much of the class involves hands on learning and project work. This book acts as the primary reference for methods taught in the class. It's now available to students and non-students alike.

Mandala Design Coloring Book - Jenean Morrison 2013-11-02

By popular request the artist behind the Pattern and Design Coloring Book Series now brings you 50 new mandala designs: Volume One of her new series devoted wholly to mandalas! These beautiful and intricate mandalas are artist Jenean Morrison's interpretation of an art form that can be traced back centuries. Mandalas are used by many as calming, meditative tools. As with her Pattern and Design Coloring Book series, all 50 designs are printed on the FRONTS OF PAGES ONLY. Jenean is certain that you'll find these mandalas as relaxing and fun to color as they were for her to design. Challenging yet soothing at the same time, you'll experience many hours of enjoyment with Volume One of the Mandala Designs Coloring Book!

Eliminating Stress, Finding Inner Peace - Brian L. Weiss, M.D. 2020-09-01

Eliminating Stress, Finding Inner Peace is an important step on the healing journey. Stress kills—there's no doubt. It eats away at you, affecting your level of happiness, as well as your stomach lining. It raises your blood pressure and directly harms your cardiovascular system. It depresses your immune system and allows chronic illnesses to overwhelm you—causing pain, disability, and even death. Basically, stress prevents you from experiencing life's many pleasures. Stress is a mental state that can cause severe negative emotional and physical consequences. It can be entirely eliminated, or at least greatly lessened, by adjusting our understanding and attitudes, and by learning simple, yet very effective, relaxation techniques. This book, with its accompanying stress-reduction audio download, will help you deeply relax. It will enable you to release the acute and chronic tension you constantly carry in your body and mind. It can also help you remove the blocks and obstacles to your inner peace and contentment, and prevent stress-related illness and disease. To heal yourself in this manner is an act of self-love, because you're taking the

time and expending the energy to work on yourself physically and emotionally, thereby bringing more joy into your life. You'll find that regular practice with the audio will produce profound, long-lasting results.

The Happiness Trap - Russ Harris 2013

A guide to ACT: the revolutionary mindfulness-based program for reducing stress, overcoming fear, and finding fulfilment - now updated. International bestseller, 'The Happiness Trap', has been published in over thirty countries and twenty-two languages. NOW UPDATED. Popular ideas about happiness are misleading, inaccurate, and are directly contributing to our current epidemic of stress, anxiety and depression. And unfortunately, popular psychological approaches are making it even worse! In this easy-to-read, practical and empowering self-help book, Dr Russ Harris, reveals how millions of people are unwittingly caught in the 'The Happiness Trap', where the more they strive for happiness the more they suffer in the long term. He then provides an effective means to escape through the insights and techniques of ACT (Acceptance and Commitment Therapy), a groundbreaking new approach based on mindfulness skills. By clarifying your values and developing mindfulness (a technique for living fully in the present moment), ACT helps you escape the happiness trap and find true satisfaction in life. Mindfulness skills are easy to learn and will rapidly and effectively help you to reduce stress, enhance performance, manage emotions, improve health, increase vitality, and generally change your life for the better. The book provides scientifically proven techniques to: reduce stress and worry; rise above fear, doubt and insecurity; handle painful thoughts and feelings far more effectively; break self-defeating habits; improve performance and find fulfilment in your work; build more satisfying relationships; and, create a rich, full and meaningful life.

Mindfulness - Mark Williams 2011-05-05
THE LIFE-CHANGING BESTSELLER - OVER 1.5 MILLION COPIES SOLD 'A deeply compassionate guide to self-care - simple and profound' Sir Kenneth Branagh 'If you want to free yourself from anxiety and stress, and feel truly at ease with yourself, then read this book'

Ruby Wax Authoritative, beautifully written and much-loved by its readers, Mindfulness: A practical guide to finding peace in a frantic world has become a word-of-mouth bestseller and global phenomenon. It reveals a set of simple yet powerful practices that you can incorporate into daily life to break the cycle of anxiety, stress unhappiness and exhaustion. It promotes the kind of happiness that gets into your bones and allows you to meet the worst that life throws at you with new courage. Mindfulness is based on mindfulness-based cognitive therapy (MBCT). Co-developed by Professor Mark Williams of Oxford University, MBCT is recommended by the UK's National Institute for Health and Care Excellence and is as effective as drugs for preventing depression. But, equally, it works for the rest of us who aren't depressed but who are struggling to keep up with the relentless demands of the modern world. By investing just a few minutes each day, this classic guide to mindfulness will put you back in control of your life once again.

Il libro della mindfulness - Stephen McKenzie 2016-05-01

La mindfulness (letteralmente «consapevolezza» di sé, delle proprie azioni, dei propri sentimenti) è un approccio psicologico che negli ultimi anni sta riscontrando un enorme successo in tutto il mondo. Consente di sviluppare la flessibilità mentale e aumentare l'autoconsapevolezza attraverso semplici esercizi quotidiani. Questo libro, scritto da due esperti di fama internazionale, è il manuale di riferimento per chiunque voglia accostarsi alla mindfulness. Attraverso esercizi pratici e poco faticosi (bastano pochi minuti al giorno), chiunque sarà presto in grado di: - aumentare il proprio senso di felicità e di benessere; - migliorare la propria visione mentale; - potenziare la propria produttività sul lavoro; - migliorare la propria vita sociale e familiare. LEGGETE QUESTO LIBRO. DATELO AI VOSTRI CARI: ANCHE SOLO POCHI MINUTI OGNI GIORNO POSSONO CAMBIARE LA VITA.

Find Your Balance Point - Brian Tracy 2015-09-01

Accomplish what matters most Because we all have too much to do, it feels like our lives are out of balance. But Brian Tracy and Christina Stein argue that imbalance results not so much

from doing too much but from doing too much of the wrong things. They provide a process that enables you to sort out what is most important to you from among the many activities you could focus on. When you can efficiently identify and accomplish what really matters to you, you've found your balance point.

Mindfulness and Acceptance - Steven C. Hayes
2011-06-22

This volume examines the role of mindfulness principles and practices in a range of well-established cognitive and behavioral treatment approaches. Leading scientist-practitioners describe how their respective modalities incorporate such nontraditional themes as mindfulness, acceptance, values, spirituality, being in relationship, focusing on the present moment, and emotional deepening. Coverage includes acceptance and commitment therapy, dialectical behavior therapy, mindfulness-based cognitive therapy, integrative behavioral couple therapy, behavioral activation, and functional analytic psychotherapy. In every chapter, the authors describe their clinical methods and goals, articulate their theoretical models, and examine similarities to and differences from other approaches both inside and outside behavior therapy.

Namasté - Héctor García 2022-10-05

Un libro illuminante che aiuta a rispondere alle sfide di oggi grazie a un sapere millenario. Dopo il grande successo di *Ikigai* che, tradotto in sessanta lingue, ha conquistato i lettori di tutto il mondo, Héctor García e Francesc Miralles hanno trascorso gli ultimi anni esplorando e scrivendo in segreto un testo sull'India, culla della spiritualità e del benessere. Numerose pratiche estremamente popolari in Occidente, come lo yoga e la meditazione, o concetti come il karma, o ancora gli antichi sistemi di guarigione come l'ayurveda, provengono da lì. Difficile non rimanere colpiti dalla storia spirituale di questo immenso paese che da oltre cinquemila anni ispira la spiritualità di tutte le epoche. Un crogiolo di infiniti tesori che i due autori, nelle loro ricerche sul campo, hanno provato a scoprire e capire. Il risultato è un libro potente, ricchissimo di conoscenza ma soprattutto di metodi che guidano ciascuno di noi nel tracciare la propria personale, e insieme condivisa, via verso la felicità. Le sfide che siamo chiamati a

risolvere non prescindono infatti da questo tema, che ritorna come essenziale in ogni aspetto della vita. Grazie a queste pagine sarà possibile salutare il divino che è in ognuno di noi e dare risposta alle tante domande che il nostro modo di vivere non fa che moltiplicare.

The Mindful Brain: Reflection and Attunement in the Cultivation of Well-Being (Norton Series on *Interpersonal Neurobiology*) - Daniel J. Siegel
2007-04-17

A new framework for maintaining mental health and well-being. From the author of the internationally-acclaimed best-selling text *The Developing Mind*, and esteemed leader and educator in the field of mental health, comes the first book ever to integrate neuroscience research with the ancient art of mindfulness. The result is a groundbreaking approach to not simply mental health, but life in general, which shows readers how personal awareness and attunement can actually stimulate emotional circuits in the brain, leading to a host of physiological benefits, including greater well-being, resilience, emotional balance, and improved cardiac and immune function. For clinicians and laypeople alike, Siegel's illuminating discussions of the power of the focused mind provide a wealth of ideas that can transform our lives and deepen our connections with others, and with ourselves.

Quiete e visione profonda - Amadeo Solé-Leris
2016-04-27

"... Cominciai a seguire l'insegnamento del Buddha dal momento in cui capii che il vero e proprio non è una religione - una fede in una Divinità e in una relazione con Essa, comunque articolata -, ma un umanesimo e, più concretamente, un sistema etico-psicologico che propone metodi pratici per raggiungere, qui e ora, la piena realizzazione delle proprie potenzialità benefiche. In Occidente, l'insegnamento del Buddha è stato più volte 'interpretato' in senso più o meno teistico: il Buddha come Dio o come sua rappresentazione/manifestazione. Ma quando mi resi conto che il Buddha (il Risvegliato) non pretendeva essere un Dio o un profeta, bensì esempio supremo di ciò che l'essere umano può diventare, mi dissi: "Questo sì che ha un senso: il Risvegliato insegna agli altri, come risvegliarsi". Questo testo vuole contribuire alla comprensione

della natura pratica e concreta dell'insegnamento del Buddha, il cui cuore è l'esercizio meditativo. Vi sono delineate le sue caratteristiche essenziali, per offrire al lettore non specializzato un'introduzione generale, che possa incoraggiare a farne esperienza. "Nel 1972 in Sri Lanka (...) ebbi la fortuna di leggere le parole del Buddha: la spiegazione di quello che lui stesso aveva sperimentato, e di come anche altri possano arrivare alla stessa esperienza. E così scoprii la straordinaria semplicità e la profonda concretezza del sentiero di quiete e visione profonda, da lui indicato. Mi dedicai, quindi, allo studio dell'antica lingua pali e dei testi. Nel 1974 feci un corso di meditazione Vipassana con il maestro indo-birmano S.N. Goenka; questa pratica dell'insegnamento del Buddha mi convinse ad accettare la sua validità, come guida di vita, e ad impegnarmi da allora al continuativo esercizio meditativo di Vipassana. Ben sapendo che è una strada lunga, a ogni passo mi appare giusta e benefica."

Minimalismo - Pietro Pellegrino 2016-03-22
Riordino mentale, downshifting, decluttering, cambiare vita, eliminare i pensieri, crescere, abitudini costruttive, essere consapevole, felicità, zen, brusio mentale, cervello, pensieri..... sono tanti gli argomenti trattati in questo libro! Vuoi avere una mente sempre "pulita" e "ordinata"? Allora sgombra la tua casa per sgombrare la tua mente! Siamo sempre più sommersi dagli oggetti inutili. Continuiamo a comprare cose di cui non abbiamo bisogno. Accumuliamo talmente tanta roba che non sappiamo più dove metterla! Perché? Perché, chi più chi meno, siamo schiavi del consumismo! Vogliamo continuare a sperperare soldi e ritrovarci con un conto in banca in esaurimento e una casa disordinata, oppure cambiare abitudini? Se non riesci a liberarti dalla confusione, allora sappi che c'è un nuovo metodo (semplicissimo) per riordinare la tua mente e la tua casa! Milioni di persone - soltanto in Italia - devono confrontarsi giorno per giorno con le sfide che le loro case sempre più disordinate impongono loro... Più accumuli oggetti, più accumuli pensieri! Spesso l'idea di iniziare a riordinare e riorganizzare casa ci sovviene per qualche istante, ma poi non abbiamo mai la voglia (né il coraggio!) di iniziare seriamente a farlo. Se ti ritrovi nelle mie parole, torna subito

in cima alla pagina e compra questo breve ebook: fallo adesso! Vuoi capire i vantaggi di lavorare PART-TIME? Questo libro, ne sono più che convinto, fa proprio al caso tuo! Liberati dalla zavorra e torna libera o libero, sia finanziariamente (scegliendo uno stile di vita "leggero") che in termini di tempo libero (non dovrai più passare ore a riordinare casa). The Wheel of Sharp Weapons -

Dharmarakshita 2019-01-01

The Wheel of Sharp Weapons, one of the most important and influential texts in the Mahayana training of the mind. It was composed by the great Indian Yogi Dharmarakshita and he transmitted these teachings to Atisha (982-1054), who later transmitted the same to his greatest disciple Upasaka Dromtonpa and together translated it into Tibetan from Sanskrit. The present English translation is based on its Tibetan text, done by the Translation Bureau of the Library of Tibetan Works and Archives. Commentary to The Wheel of Sharp Weapons was given by Geshe Ngawang Dhargyey.

Molecules of Emotion -

Candace B. Pert 1997
Explains the science behind the brain's opiate receptors and other evidence of the intimate connections between mind and body, and their meaning for the future of Western medicine

Kaizen -

Sarah Harvey 2020-01-21
Reach your goals with Kaizen—the Japanese art of gentle self-improvement From Hygge to Ikigai, positive philosophies have taken the world by storm. Now, Kaizen—meaning “good change”—will help you transform your habits, without being too hard on yourself along the way. With Kaizen, even the boldest intention becomes a series of small, achievable steps. Each person’s approach will be different, which is why it’s so effective. First popularized by Toyota, Kaizen is already proven in the worlds of business and sports. Here, Sarah Harvey shows how to apply it to your health, relationships, money, career, hobbies, and home—and how to tailor it to your personality. Kaizen is the key to lasting change

The Opposite of Worry -

Lawrence J. Cohen
2013-09-10
“The most helpful book on childhood anxiety I have ever read.”—Michael Thompson, Ph.D.
Whether it’s the monster in the closet or the fear that arises from new social situations, school, or sports, anxiety can be especially challenging and maddening for children. And since anxiety has a mind of its own, logic and reassurance often fail, leaving parents increasingly frustrated about how to help. Now Lawrence J. Cohen, Ph.D., the author of Playful Parenting, provides a special

set of tools to handle childhood anxiety. Offering simple, effective strategies that build connection through fun, play, and empathy, Dr. Cohen helps parents • start from a place of warmth, compassion, and understanding • teach children the basics of the body’s “security system”: alert, alarm, assessment, and all clear. • promote tolerance of uncertainty and discomfort by finding the balance between outright avoidance and “white-knuckling” through a fear • find lighthearted ways to release tension in the moment, labeling stressful emotions on a child-friendly scale • tackle their own anxieties so they can stay calm when a child is distressed • bring children out of their anxious thoughts and into their bodies by using relaxation, breathing, writing, drawing, and playful roughhousing With this insightful resource of easy-to-implement solutions and strategies, you and your child can experience the opposite of worry, anxiety, and fear and embrace connection, trust, and joy. Praise for The Opposite of Worry “The Opposite of Worry is an informative resource for parents and other family members. The book is easy to read, comprehensive and notable for its many practical suggestions.”—New England Psychologist “Good advice for parents making daily calls to the pediatrician . . . Anxiety is a full-body sport, and Cohen’s main advice is not to treat it with words but with actions. . . . Physicality is about living in the present, and for anxious people, the present is a powerful place of healing. Intended for parents of children ages 3 to 15, this book offers anecdotes and fun anti-anxiety games.”—Publishers Weekly “Here’s the help parents of anxious children have been looking for! Dr. Cohen’s genius is in the warm and generous spirit of the strategies he outlines for parents. He grounds his playful approach in a sound explanation of how anxiety affects children, and how they heal. Parents will come away with plenty of ideas to help them develop their children’s confidence. While reading, I found myself thinking, ‘I’d like to try that for myself!’”—Patty Wipfler, founder and program director, Hand in Hand Parenting “If you want to understand your child’s anxiety—and your own parental worries—you must read Larry Cohen’s brilliant book, The Opposite of Worry. Dr. Cohen is one of the most imaginative and thoughtful psychologists you will ever encounter. He

explains how and why children become anxious and then shows how we can use empathy and play to help them escape from the terrifying dark corners of childhood.”—Michael Thompson, Ph.D. “The Opposite of Worry offers a treasure trove of ideas to help children feel confident and secure. Lawrence Cohen has written a book that will help every parent of an anxious child.”—Aletha Solter, Ph.D., founder, Aware Parenting, and author of Attachment Play

Resilient - Rick Hanson, PhD 2020-02-04

These days it’s hard to count on the world outside. So it’s vital to grow strengths inside like grit, gratitude, and compassion—the key to resilience, and to lasting well-being in a changing world. True resilience is much more than enduring terrible conditions. We need resilience every day to raise a family, work at a job, cope with stress, deal with health problems, navigate issues with others, heal from old pain, and simply keep on going. With his trademark blend of neuroscience, mindfulness, and positive psychology, New York Times bestselling author Dr. Rick Hanson shows you how to develop twelve vital inner strengths hardwired into your own nervous system. Then no matter what life throws at you, you’ll be able to feel less stressed, pursue opportunities with confidence, and stay calm and centered in the face of adversity. This practical guide is full of concrete suggestions, experiential practices, personal examples, and insights into the brain. It includes effective ways to interact with others and to repair and deepen

important relationships. Warm, encouraging, and down-to-earth, Dr. Hanson’s step-by-step approach is grounded in the science of positive neuroplasticity. He explains how to overcome the brain’s negativity bias, release painful thoughts and feelings, and replace them with self-compassion, self-worth, joy, and inner peace.

Emotional Balance - Roy Martina 2010-10-04

Dr Roy Martina has developed a powerful comprehensive healing system called 'Omega healing'. This preventative system has been acknowledged as one of the most powerful healing techniques currently available. It tackles the root cause of problems - not just the symptoms. Balancing the emotional body and returning to our core essence restores us to greater health, ease and happiness. This fantastic CD package collects together some of Roy's most powerful teachings on this subject, along with meditations that will allow you to implement its incredible effects in your life. The first section provides an excellent introduction to Roy's background and how he came to heal himself using his Omega Healing technique. The second section features four incredible meditations that will allow you to heal every aspect of your life. The first provides energy and vitality. The second is a relaxing visualisation for the end of the day. The third helps with releasing feelings. The fourth helps heal traumas in our past lives. These meditations, recorded live in London and exclusively for Hay House showcase one of the brightest new voices in healing.
