Maccheroni Books - Henri Maccheroni 2007

Wrong - Diarmuid Hester
2020-06-01

Dennis Cooper is one of the most inventive and prolific artists of our time. Working in a variety of forms and media since he first exploded onto the

scene in the early 1970s, he has been a punk poet, a queercore novelist, a transgressive blogger, an indie filmmaker—each successive incarnation more ingenious and surprising than the last.

Cooper's unflinching determination to probe the obscure, often violent recesses of the human psyche have seen him compared with literary outlaws like Rimbaud, Genet, and the Marquis de Sade. In this, the first book-length study of Cooper's life and work, Diarmuid Hester shows that such comparisons hardly scratch the surface. A lively retrospective appraisal of Cooper's fifty-year career, *Wrong* tracks the emergence of Cooper's singular style alongside his participation in a number of American subcultural movements like New York School poetry, punk rock, and radical queercore music and zines. Using extensive archival research, close readings of texts, and new interviews with Cooper and his contemporaries, Hester weaves a complex and often

thrilling biographical narrative that attests to Cooper's status as a leading figure of the American post-War avant-garde.

Warning Miracle -

Transrealist Fiction - Damien Broderick 2000

Transrealist writing treats "immediate perceptions in a fantastic way," according to science fiction writer and mathematician Rudy Rucker, who originated the term. In the expanded sense argued in this book, it also intensifies imaginative fiction by writing the fantastic from the standpoint of richly personalized experience, as in the works of Philip K. Dick. This volume examines a variety of work from a transrealist perspective, including the writings of Dick, Rucker, Kurt Vonnegut, J.G. Ballard, and John Barth.

Nicolás Guagnini: Theatre of the Self - Alaina Claire Feldman 2020-10-08

Nicolás Guagnini: Theatre of the Self is a hybrid catalogue-reader based on the exhibition of the multi-threaded performances of Buenos Aires-born New York-based Guagnini. Many of these works, spanning from 2005 until 2019, have never been seen before or have not been seen since their original live presentation.

Raised in Argentina during the "Dirty War" and violent military dictatorship, Guagnini moved to New York in the late 1990s and co-founded the film production company Union Gaucha Productions with Karin Schneider in 1997. In 2005 Guagnini became co-founder of Orchard Gallery, an artist cooperative based on the Lower East Side. The work in Theatre of the Self is informed in part by autobiography, history, politics and through Guagnini's community itself. Some performances were participatory, some were not. But all were made polyvocally in collaboration with a group of

artists with shared interests and concerns around performance and the moving image including Ei Arakawa, Leigh Ledare, Jeff Preiss, Aura Rosenberg, Karin Schneider among others. Contrastive Phraseology - Cotta Ramusino 2020

This volume is addressed to researchers in the field of phraseology, and to teachers, translators and lexicographers. It is a collection of essays offering a comprehensive, modern analysis of phrasemes, embracing a wide range of subjects and themes, from linguistic, both applied and theoretical, to cultural aspects. and analogies between phraseological units in two or more languages to be outlined. The languages compared here are both major and minor, European and non-European, and the text includes contrastive analyses of the most commonly investigated languages (French-German, English-Spanish, Russian-German), as well as some less frequently investigated languages (like Ukrainian, Romanian, Georgian and Thai), which are not as well-represented in phraseological description, despite their scientific interest.

bridging the gap between these fields. The objective is to show that principles of behavioral genetics have practical applications to agricultural and companion animals. The continuing domestication of animals is a complex process whose myriad impacts on animal behavior are commonly under-appreciated. Genetic factors play a significant role in both species-specific behaviors and behavioral differences exhibited by individuals in the same species. Leading authorities explore the impact of increased intensities of selection on domestic animal behavior. Rodents, cattle, pigs, sheep, horses, herding and guard dogs, and poultry are all included in these discussions of genetics and behavior, making this book useful to veterinarians, livestock producers, laboratory animal researchers and technicians, animal trainers and breeders, and any researcher interested in animal behavior. Includes four new chapters on dog and fox behavior, pig behavior, the effects of domestication and

Looking for the Maneki-Neko Love Hotel - Christine Kriha Kastner 2014-08-06

Japan has long been known as the Land of the Rising Sun, but it is now better known as the Land of Cat-Cafes, Green-Tea Matcha Lattes, Love-Hotels and Orion Beer! Together, Don and Christine Kastner traveled to Japan to attend the 5th Uchinanchu Festival on the small Pacific island of Okinawa, where Chris once lived as a teenager in the 1960s with her U.S. Army father and family. The sound of choppers hovering overhead . . . takes me back to my childhood. I grew up hearing them in the background . . . or coming in

for a landing. It was a comforting background sound—along with the roar of jets streaking through the skies. I was a military brat.

Altamont - Joel Selvin

2016-08-16

In this breathtaking cultural history filled with exclusive, never-before-revealed details, celebrated rock journalist Joel Selvin tells the definitive story of the Rolling Stones' infamous Altamont concert, the disastrous historic event that marked the end of the idealistic 1960s. In the annals of rock history, the Altamont Speedway Free Festival on December 6, 1969, has long been seen as the distorted twin of Woodstock—the day that shattered the Sixties' promise of peace and love when a concertgoer was killed by a member of the Hells Angels, the notorious biker club acting as security. While most people know of the events from the film Gimme Shelter, the whole story has remained buried in varied accounts, rumor, and myth—until now. Altamont explores rock's darkest day, a

fiasco that began well before the climactic death of Meredith Hunter and continued beyond that infamous December night. Joel Selvin probes every aspect of the show—from the Stones' hastily planned tour preceding the concert to the bad acid that swept through the audience to other deaths that also occurred that evening—to capture the full scope of the tragedy and its aftermath. He also provides an in-depth look at the Grateful Dead's role in the events leading to Altamont, examining the band's behind-the-scenes presence in both arranging the show and hiring the Hells Angels as security. The product of twenty years of exhaustive research and dozens of interviews with many key players, including medical staff, Hells Angels members, the stage crew, and the musicians who were there, and featuring sixteen pages of color photos, Altamont is the ultimate account of the final event in rock's formative and most turbulent decade.

The Antique Story Book -

Arthur Schwerdt 2007-05

The most fun you'll ever have
learning about antiques, from
the man the Philadelphia Daily
News has called "the godfather
of Cape May County
antiquing," can be found in *The
Antique Story Book: Finding
the Real Value of Old Things*.
From his columns, lectures,
and classes on antiques, author
Arthur Schwerdt, a certified

appraiser and dealer for nearly
a quarter of a century, shares
some of his favorite stories-the
ones that make antiques so
fascinating to so many people.
In "Love and Sex-Victorian
Style," Schwerdt tells how he
learns about intimacy in that
era and wonders what future
antique hunters will learn
about our sexuality. "The
Mysterious Creator(s) of Nancy
Drew" discusses the identity of
the man who conceptualized
Nancy Drew and her
character's influence on future
literature. Most importantly,
Schwerdt divulges the most
enjoyable, valuable, and
meaningful aspect of antiquing-
the stories behind each
treasure. Long ago, every item
in today's antique shops

The *Antique Story Book* makes
these items come alive again,

In just eight short chapters, the authors provide readers with enough basic knowledge of PDEs, discretization methods, solution techniques, parallel computers, parallel programming, and the run-time behavior of parallel algorithms to allow them to understand, develop, and implement parallel PDE solvers. Examples throughout the book are intentionally kept simple so that the parallelization strategies are not dominated by technical details.
