History of Rome - Livy 1971

Most of Livy's life was devoted to writing his monumental "History of Rome" in 142 books. This contains the first 5 books and proceeds from the foundation of Rome through the history of the seven kings, the establishment of the Republic and its internal struggles, up to Rome's recovery after the fierce Gallic invasion of the fourth century BC.

The War with Hannibal - Livy 2004-09-30

In *The War with Hannibal*, Livy (59 BC-AD 17) chronicles the events of the Second Punic War between Rome and Carthage, until the Battle of Zama in 202 BC. He vividly recreates the immense armies of Hannibal, complete with elephants, crossing the Alps; the panic as they approached the gates of Rome; and the decimation of the Roman army at the Battle of Lake Trasimene. Yet it is also the clash of personalities that fascinates Livy, from great debates in the Senate to the historic meeting between Scipio and Hannibal before the decisive battle. Livy never hesitates to introduce both intense drama and moral lessons into his work, and here he brings a turbulent episode in history powerfully to life.

Livy's history of Rome contains, in Books 21 to 30, the definitive ancient account of Hannibal's invasion of Italy in 218 BC, and the war he fought with the Romans over the following sixteen years. Livy describes the bloody siege of the Spanish city of Saguntum, Rome's ally, which sparked the war, and the Carthaginian leader's famous march with elephants over the Alps into Italy. Livy conveys the drama of the great battles, the disastrous encounters at Trasimene and Cannae, and the final confrontation between Hannibal and the youthful Scipio Africanus. Individuals as well as events are brought to life, as the long course of the Second Punic War unfolds.

Hannibal - Serge Lancel 1999-10-05

This is an historical biography of Hannibal, the military leader of Carthage responsible for waging a dramatic onslaught on Rome during the Punic Wars. One of the few generals of history to be famous for the war he lost, Hannibal's attack in 218BC - which included his renowned march of elephants across the Alps - ranks amongst the most courageous and ill-fated enterprises in the history of the ancient world. This definitive biography of one of the most fascinating figures of ancient history offers a fresh perspective on the demise of the Hellenistic world and the rise of Rome.

Hannibal - Richard A. Gabriel 2011-02-28

The Romans' destruction of Carthage after the Third Punic War erased any Carthaginian historical record of Hannibal's life. What we know of him comes exclusively from Roman historians who had every interest in minimizing his success, exaggerating his failures, and disparaging his character. The charges leveled against Hannibal include greed, cruelty and atrocity, sexual indulgence, and even cannibalism. But even these sources were forced to grudgingly admit to Hannibal's military genius, if only to make their eventual victory over him appear greater. Yet there is no doubt that Hannibal was the greatest Carthaginian general of the Second Punic War. When he did not defeat them outright, he fought to a standstill the best generals Rome produced, and he sustained his army in the field for sixteen long years without mutiny or desertion. Hannibal was a first-rate tactician, only a somewhat lesser strategist, and the greatest enemy Rome ever faced. When he at last met defeat at the hands of the Roman general Scipio, it was against an experienced officer who had to strengthen and reconfigure the Roman legion and invent mobile tactics in order to succeed. Even so, Scipio's victory at Zama was against an army that was a shadow of its former self. The battle could easily have gone the other way. If it had, the history of the West would have been changed in ways that can only be imagined. Richard A. Gabriel's brilliant new biography shows how Hannibal's genius nearly unseated the Roman Empire.

Hannibal's Last Battle - Brian Todd Carey 2007-10-18

A "crisply written, well researched . . . superb piece of scholarship about one of the most dramatic and decisive battles in the ancient world" (Journal of Military History). At Zama (in what is now Tunisia) in 202 BC, the armies of two great empires clashed: the Romans under Scipio Africanus and Carthaginians, led by Hannibal. Scipio's forces would win a decisive, bloody victory that forever shifted the balance of power in the ancient world. Thereafter, Rome became the dominant civilization of the Mediterranean. Here, Brian Todd Carey recounts that battle and the grueling war that led up to it. He offers fascinating insight into the Carthaginian and Roman methods of waging war, their military organizations, equipment, and the tactics the armies employed. He also delivers an in-depth critical assessment of the contrasting qualities and leadership styles of Hannibal and Scipio, the two most celebrated commanders of their age. With vivid prose and detailed maps of the terrains of the time, Hannibal's Last Battle is an essential text for fans of military history and students of the classical period.

Hannibal and Me - Andreas Kluth 2012-01-05

A dynamic and exciting way to understand success and failure, through the life of Hannibal, one of history's greatest generals. The life of Hannibal, the Carthaginian general who crossed the Alps with his army in 218 B.C.E., is the stuff of legend. And the epic choices he and his opponents made on the battlefield and

elsewhere in life offer lessons about responding to our victories and our defeats that are as relevant today as they were more than 2,000 years ago. A big new idea book inspired by ancient history, *Hannibal and Me* explores the truths behind triumph and disaster in our lives by examining the decisions made by Hannibal and others, including Albert Einstein, Eleanor Roosevelt, Steve Jobs, Ernest Shackleton, and Paul Cézanne—men and women who learned from their mistakes. By showing why some people overcome failure and others succumb to it, and why some fall victim to success while others thrive on it, *Hannibal and Me* demonstrates how to recognize the seeds of success within our own failures and the threats of failure hidden in our successes. The result is a page-turning adventure tale, a compelling human drama, and an insightful guide to understanding behavior. This is essential reading for anyone who seeks to transform misfortune into success at work, at home, and in life.

[Hannibal's Oath](#) - John Prevas 2017-09-26

According to the ancient sources, Hannibal was nine years old when his father led him to the temple at Carthage and dipped the young boy's hands in the blood of the sacrificial victim. Before those gods, Hannibal swore an oath of eternal hatred toward Rome. Few images in history have managed to capture and hold the popular imagination quite like that of Hannibal, the fearless North African, perched on a monstrous elephant, leading his mercenaries over the Alps, and then, against all odds, descending the ice-covered peaks to challenge Rome in her own backyard for mastery of the ancient world. It was a bold move, and it established Hannibal as one of history's greatest commanders. But this same brilliant tactician is also one of history's most tragic figures; fate condemned him to win his battles but not his war against Rome. An internationally recognized expert on Hannibal for nearly thirty years, historian John Prevas has visited every Hannibal-related site and mountain pass, from Tunisia to Italy, Spain to Turkey, seeking evidence to dispel the myths surrounding Hannibal's character and his wars. *Hannibal's Oath* is an easily readable yet comprehensive biography of this iconic military leader—an epic account of a monumental and tragic life.

[Hannibal Crosses The Alps](#) - John Prevas 2009-03-05

When he left his Spanish base one spring day in 218 B.C. with his 100,000-man army of mercenaries, officers, and elephants, Hannibal was launching not just the main offensive of the Second Punic War but also one of the great military journeys in ancient history. His masterful advance through rough terrain and fierce Celtic tribes proved his worth as a leader, but it was his extraordinary passage through the Alps—still considered treacherous even by modern climbers—that made him a legend. John Prevas combines rigorous research of ancient sources with his own excursions through the icy peaks to bring to life this awesome trek, solving the centuries-old question of Hannibal's exact route and shedding fresh light on the cultures of Rome and Carthage along the way. Here is the finest kind of history, sure to appeal to readers of Steven Pressfield's *Gates of Fire*: alive with grand strategy, the clash of empires, fabulous courage, and the towering figure of Hannibal Barca.

[The Ghosts of Cannae](#) - Robert L. O'Connell 2011-09-13

NATIONAL BESTSELLER For millennia, Carthage's triumph over Rome at Cannae in 216 B.C. has inspired reverence and awe. No general since has matched Hannibal's most unexpected, innovative, and brutal military victory. Now Robert L. O'Connell, one of the most admired names in military history, tells the whole story of Cannae for the first time, giving us a stirring account of this apocalyptic battle, its causes and consequences. O'Connell brilliantly conveys how Rome amassed a giant army to punish Carthage's masterful commander, how Hannibal outwitted enemies that outnumbered him, and how this disastrous pivot point in Rome's history ultimately led to the republic's resurgence and the creation of its empire. Piecing together decayed shreds of ancient reportage, the author paints powerful portraits of the leading players, from Hannibal—resolutely sane and uncannily strategic—to Scipio Africanus, the self-promoting Roman military tribune. Finally, O'Connell reveals how Cannae's legend has inspired and haunted military leaders ever since, and the lessons it teaches for our own wars.

Hannibal - Theodore Ayrault Dodge 2005

Despite his status as a great general and his string of victories on the battlefield, Hannibal was defeated in the end. This story of Hannibal's tactical genius but strategic failure holds lessons today for those who are trying to understand why success on the battlefield does not always, or even frequently, lead to victory in war.

Hannibal's Road - Mike Roberts 2017-03-30

Many books have been written on the Second Punic War and Hannibal in particular but few give much space to his campaigns in the years from 213 203 BC. Most studies concentrate on Hannibal's series of stunning victories in the early stages of the war, culminating at Cannae in 216 BC, then refocus on the activities of his nemesis, Scipio Africanus, in Spain until the two meet in the final showdown at Zama. But this has led to the neglect of some of the Carthaginian genius most remarkable campaigns. By 212 the wider war was definitely going against the Carthaginians. Yet Hannibal, despite being massively outnumbered and with little support from home, was able to sustain his polyglot army and campaign actively across southern Italy for another ten years. His skilful manoeuvring and victory in numerous engagements kept several veteran armies of the normally aggressive Romans tied up and on the defensive, until Scipio's invasion of North Africa pulled him home to defend Carthage. Mike Roberts follows the course of these remarkable events in detail, analysing Hannibal's strategy and aims in this phase of the war and revealing a genius that had lost none of its lustre in adversity.

Hannibal - Jacob Abbott 1915

Hannibal - Patrick N Hunt 2017-07-11

Hannibal is "an exciting biography of one of history's greatest commanders...a thrilling page-turner" (Kirkus Reviews, starred review) about the brilliant general who successfully crossed the Alps with his war elephants and brought Rome to its knees, and who is still regarded today as one of the greatest military strategists in history. Hannibal Barca of Carthage, born 247 BC, was one of the great generals of the ancient world. His father, Hamilcar, imposed Carthaginian rule over much of present-day Spain. After Hamilcar led the Carthaginian forces against Rome in the First Punic War, Hannibal followed in his father's footsteps. From the time he was a teenager, Hannibal fought against Rome. He is famed for leading Carthage's army across North Africa, into Spain, along the Mediterranean coast, and then crossing the Alps with his army and war elephants. Hannibal won victories in northern Italy by outmaneuvering his Roman adversaries and defeated a larger Roman army at the battle of Cannae in 216 BC. Unable to force Rome to capitulate, however, he was eventually forced to leave Italy and return to Carthage when a savvy Roman general named Scipio invaded North Africa. Hannibal and Scipio fought an epic battle at Zama, which Hannibal lost. Many Carthaginians blamed Hannibal, who was exiled until his death. Hannibal is still regarded as a military genius. Napoleon, George Patton, and Norman Schwarzkopf, Jr. are only some of the generals who studied and admired him. His strategy and tactics are still taught in military academies. "With wonderful energy...archeologist and historian Patrick Hunt distills his survey of literature about the Second Punic War into a brightly dramatic story that covers virtually every anecdote connected with Hannibal" (The Christian Science Monitor). "Hunt's story of the doomed general, whose exploits are more celebrated than those of his vanquishers, will appeal to any reader interested in military history or strategy"

(Publishers Weekly).

Hannibal Barca - Captivating History 2019-09-17

One of the names most synonymous with brilliant military strategy is Hannibal. He was the legendary Carthaginian general who marched elephants over the snowy Alps and took on Rome, the growing power in Europe at the time. He outsmarted the best strategists that Rome had to offer and twice sat in front of the gates of Rome with his army.

Hannibal's War - John Peddie 2005-01-01

John Peddie provides a re-evaluation of the Carthaginian's generalship, and asks how a man could have plunged so deeply into a situation in which he was almost inevitably, to fail? He examines Hannibal's historic march on Rome.

Rome and Italy - Livy 2004-05-27

Books VI-X of Livy's monumental work trace Rome's fortunes from its near collapse after defeat by the Gauls in 386 bc to its emergence, in a matter of decades, as the premier power in Italy, having conquered the city-state of Samnium in 293 bc. In this fascinating history, events are described not simply in terms of partisan politics, but through colourful portraits that bring the strengths, weaknesses and motives of leading figures such as the noble statesman Camillus and the corrupt Manlius vividly to life. While Rome's greatest chronicler intended his history to be a memorial to former glory, he also had more didactic aims - hoping that readers of his account could learn from the past ills and virtues of the city.

The History of Rome - Livy 1882

Hannibal's War - John Francis Lazenby 1998

Hannibal is acknowledged to be one of history's greatest generals, and his crossing of the Alps - complete with elephants - to make war against Rome on its home soil is legendary. But even Hannibal met his match in Scipio, and ultimately Carthage was defeated by the rising power of Rome. In *Hannibal's War*, J. F. Lazenby provides the first scholarly account in English since 1886 solely devoted to the Second Punic War - what some have called the first "world war" for mastery of the Mediterranean world. By closely examining the accounts of Livy and Polybius, supplemented with the fruits of modern research, Lazenby provides a detailed military history of the entire war as it was fought in Italy, Spain, Greece, and North Africa. This edition includes a new preface covering recent research on Hannibal's war against Rome.

Pride of Carthage - David Anthony Durham 2006-01-03

This epic retelling of the legendary Carthaginian military leader's assault on the Roman empire begins in Ancient Spain, where Hannibal Barca sets out with tens of thousands of soldiers and 30 elephants. After conquering the Roman city of Saguntum, Hannibal wages his campaign through the outposts of the empire, shrewdly befriending peoples disillusioned by Rome and, with dazzling tactics, outwitting the opponents who believe the land route he has chosen is impossible. Yet Hannibal's armies must take brutal losses as they pass through the Pyrenees mountains, forge the Rhone river, and make a winter crossing of the Alps before descending to the great tests at Cannae and Rome itself. David Anthony Durham draws a brilliant and complex Hannibal out of the scant historical record-sharp, sure-footed, as nimble among rivals as on the battlefield, yet one who misses his family and longs to see his son grow to manhood. Whether

portraying the deliberations of a general or the calculations of a common soldier, vast multilayered scenes of battle or moments of introspection when loss seems imminent, Durham brings history alive.

[Livy on the Hannibalic War](#) - D. S. Levene 2010-06-17

Livy's account of the Hannibalic War in his Third Decade is a narrative history of unparalleled richness, drama, and depth. In the first full-scale study of this key work, D. S. Levene explores the things that make it distinctive not only within Livy's writing but also within all ancient historiography.

Cornelius Nepos, Life of Hannibal - Bret Mulligan 2015-10-05

Trebia. Trasimene. Cannae. With three stunning victories, Hannibal humbled Rome and nearly shattered its empire. Even today Hannibal's brilliant, if ultimately unsuccessful, campaign against Rome during the Second Punic War (218-202 BC) make him one of history's most celebrated military leaders. This biography by Cornelius Nepos (c. 100-27 BC) sketches Hannibal's life from the time he began traveling with his father's army as a young boy, through his sixteen-year invasion of Italy and his tumultuous political career in Carthage, to his perilous exile and eventual suicide in the East. As Rome completed its bloody transition from dysfunctional republic to stable monarchy, Nepos labored to complete an innovative and influential collection of concise biographies. Putting aside the detailed, chronological accounts of military campaigns and political machinations that characterized most writing about history, Nepos surveyed Roman and Greek history for distinguished men who excelled in a range of prestigious occupations. In the exploits and achievements of these illustrious men, Nepos hoped that his readers would find models for the honorable conduct of their own lives. Although most of Nepos' works have been lost, we are fortunate to have his biography of Hannibal. Nepos offers a surprisingly balanced portrayal of a man that most Roman authors vilified as the most monstrous foe that Rome had ever faced. Nepos' straightforward style and his preference for common vocabulary make *Life of Hannibal* accessible for those who are just beginning to read continuous Latin prose, while the historical interest of the subject make it compelling for readers of every ability.

Mastering the West - Dexter Hoyos 2015-01-16

To say the Punic Wars (264-146 BC) were a turning point in world history is a vast understatement. This bloody and protracted conflict pitted two flourishing Mediterranean powers against one another, leaving one an unrivalled giant and the other a literal pile of ash. To later observers, a collision between these civilizations seemed inevitable and yet to the Romans and Carthaginians at the time hostilities first erupted seemingly out of nowhere, with what were expected to be inconsequential results. *Mastering the West* offers a thoroughly engrossing narrative of this century of battle in the western Mediterranean, while treating a full range of themes: the antagonists' military, naval, economic, and demographic resources; the political structures of both republics; and the postwar impact of the conflicts on the participants and victims. The narrative also investigates questions of leadership and the contributions and mistakes of leaders like Hannibal, Fabius the Delayer, Scipio Africanus, Masinissa, and Scipio Aemilianus. Dexter Hoyos, a leading expert of the period, treats the two great powers evenly, without neglecting the important roles played by Syracuse, Macedon, and especially Numidia. Written with verve in a clear, accessible style, with a range of illustrations and newly-commissioned maps, *Mastering the West* will be the most reliable and engaging narrative of this pivotal era in ancient history.

Hannibal - Philip Freeman 2022-02-01

Telling the story of a man who stood against the overwhelming power of the mighty Roman empire, *Hannibal* is the biography of a man who, against all odds, dared to change the course of history. Over two thousand years ago one of the greatest military leaders in history almost destroyed Rome. Hannibal, a daring African general from the city of Carthage, led an army of warriors and battle elephants over the snowy Alps to invade the very heart of Rome's growing empire. But what kind of person would dare to face the most relentless imperial power of the ancient world? How could Hannibal, consistently outnumbered and always deep in enemy territory, win battle after battle until he held the very fate of Rome within his grasp? Hannibal appeals to many as the ultimate underdog—a Carthaginian David against the Goliath of Rome—but it wasn't just his genius on the battlefield that set him apart. As a boy and then a man, his self-discipline and determination were legendary. As a military leader, like Alexander the Great before him and Julius Caesar after, he understood the hearts of men and had an uncanny ability to read the unseen weaknesses of his enemy. As a commander in war, Hannibal has few equals in history and has long been held as a model of strategic and tactical genius. But Hannibal was much more than just a great general. He was a practiced statesman, a skilled diplomat, and a man deeply devoted to his family and country. Roman historians—on whom we rely for almost all our information on Hannibal—portray him as a cruel barbarian, but how does the story change if we look at Hannibal from the Carthaginian point of view? Can we search beneath the accounts of Roman writers who were eager to portray Hannibal as a monster and find a more human figure? Can we use the life of Hannibal to look at the Romans themselves in an unfamiliar way— not as the noble and benign defenders of civilization but as ruthless conquerors motivated by greed and conquest?
