'Even though they're gone from the world, they're never gone from me.' The Doctor is many things - curious, funny, brave, protective of her friends...and a shameless namedropper. While she and her companions battled aliens and travelled across the universe, the Doctor

hinted at a host of previous, untold adventures with the great and the good: we discovered she got her sunglasses from Pythagoras (or was it Audrey Hepburn?); lent a mobile phone to Elvis; had an encounter with Amelia Earhart where she discovered that a pencil-thick spider web can stop a plane; had a 'wet weekend' with Harry Houdini, learning how to escape from chains underwater; and more. In this collection of new stories, Star Tales takes you on a rip-roaring ride through history, from 500BC to the swinging 60s, going deeper into the Doctor's notorious name-dropping and revealing the truth behind these anecdotes.

a playwright, and a work of experimental fiction in order to upend the usual ways painting and performance art are described. Highly regarded experimental graphic designer Joshua Gamma interprets their practice liberally-never simply reproducing images of works, but instead distilling Ben-Tor & Carmi's visual language into core elements that operate as a language alongside the work of the commissioned authors' texts. The book attends to the realities of this collaboration. The contributors include celebrated film maker Martin Brest's mapping of his experience of Ben Tor and Carmi's work. Internationally acclaimed artist, author, and theorist, Coco Fusco contributes an analysis of Carmi's innovations in painting, bringing attention to histories of eugenics and the grotesque as pertain to his contemporary art practice. Our intention is to expand the platforms and ways art writing and art criticism appear in publishing. C.Z amplifies the drives that fuel Ben-Tor and

Carmi's collaboration through his poetic fictional narrative that taps the relationships underpinning the subjects tackled by these artists. An exhibiting artist himself, C.Z. draws on their shared studies of psychology, mythologies, and Jewish histories. Playwright Adara Meyers studio visit notes. Kosuke Kawahara experimental rendering of the artists further expresses Ben-Tor and Carmi as teachers and friends creating an artist community, Alpesh Kantilal Patel's art historical scholarship, curating, and criticism reflect his queer, anti-racist, and transnational approach to contemporary art. He brings an analysis of how Ben-Tor and Carmi's practices re-work the body as never singular or heteronormative, but disembodied, contained, and easily racialized. The writing of Kate Gaudy, an exhibiting artist and curator working in Buffalo, New York, challenges us to stare, to look at Carmi's paintings, to watch and listen again to Ben-Tor's videos. Psychoanalytic, raw,

explicit, Gaudy activates the forces that steer and feed their work, as artists and caregivers. DOCTOR WHO QUIZ BOOK - BETH. AXFORD 2022

Synopsis of Biological Data on the Tor Mahseer Tor Tor (Hamilton, 1822) - V. R.

Desai 2003

Among Indian mahseers, Tor mahseer Tor tor (Hamilton, 1822) is the most important food and game fish of India after Tor putitora (Hamilton, 1822). It constitutes an outstanding fishery in the Narmada River in central India. It has also settled in some Indian reservoirs which have been stocked with this fish.

However, the building of dams across certain rivers has created reservoirs that have destroyed the natural breeding grounds of the fish and caused mortality on brood and juvenile fish indiscriminately. The mahseer fishery of India is further declining as a result of low recruitment of the fish. Stocking rivers and reservoirs with mahseer is therefore essential to restore the fishery. This synopsis is the compilation of biological data for Tor tor - Tor mahseer collected from different sources. The detailed biological information on Tor tor, including the feeding habits, breeding and growth patterns contained in this synopsis, will be very useful in planning the development of the mahseer fishery in India.

While Doctor Who's attempts at worldbuilding are notorious for being hit-and-miss - old jokes about wobbly walls and sink plungers die hard - the distinctiveness of the series' design imagery is beyond question. And over the course of six decades Doctor Who has produced designs which are not only iconic but, in being repeatedly revisited and updated, have proven to be an ever-more important element in the series' identity and mythos. In the first in-depth study of Doctor Who's costumes, sets and graphics, Piers Britton offers an historical overview of both the original and the revived series, explores theoretical frameworks for evaluating Doctor Who design, and provides detailed analysis of key images. Case studies include the visual morphology

of Doctor Who's historical adventures, the evaluative character of cosplay, and the ongoing significance for the Doctor Who brand of such high-profile designs as the Daleks and the TARDIS interior, the 'time-tunnel' title sequence, and the costumes of the Fourth and Thirteenth Doctors.
