Beyond Bicentennial: Perspectives On Malays - Wan Hussin Zoohri 2020-07-24

The year 2019 marks Singapore's Bicentennial milestone since the arrival of Sir Stamford Raffles in Singapore in 1819. It was in anticipation of the arrival of the Bicentennial that this book, Beyond Bicentennial: Perspectives on Malays, was initiated. This book is a collection of articles from prominent individuals and academicians that touch not only on the 200 years since the arrival of Raffles, but goes back much earlier, 720 years earlier, when Sang Nila Utama first set foot on the island in 1299. This book hopes to heighten the readers' sense of history and to reflect upon how Singapore has journeyed over the last two centuries, witnessing the perseverance, trials, challenges, and efforts of Singaporeans, and to see how the nation has gone through a transformation from a feudal setting to a cosmopolitan and multi-racial society. Prior to this book, Majulah! 50 Years of Malay/Muslim Community in Singapore was published in 2016 when Singapore celebrated SG50 — an initiative launched to celebrate the nation's 50 years of independence. The book highlighted the progress, the contributions, and the challenges of the community for the past 50 years since Singapore's independence in 1965. Both books can be read hand-in-hand. While Majulah! 50 Years of Malay/Muslim Community in Singapore called on the community to reflect on the past and to look ahead, this book, Beyond Bicentennial: Perspectives on Malays, calls on readers to reflect and re-examine the position and contributions of the Malays to Singapore's history and its development, as Singapore commemorates its Bicentennial. The Mystery of the Hanging Garden of Babylon - Stephanie Dalley 2013-05-23

The Mystery of the Hanging Garden of Babylon is an exciting story of detection involving legends, expert decipherment of ancient texts, and a vivid description of a little-known civilization. Recognised in ancient times as one of the Seven Wonders of the World, the legendary Hanging Garden of Babylon and its location still remains a mystery steeped in shadow and puzzling myths. In this remarkable volume Stephanie Dalley,

a world expert on ancient Babylonian language, gathers for the first time all the material on this enigmatic World Wonder. Tracing the history of the Garden, Dalley describes how the decipherment of an original text and its link to sculpture in the British Museum has enabled her to pin down where the Garden was positioned and to describe in detail what it may have looked like. Through this dramatic and fascinating reconstruction of the Garden, Dalley is also able to follow its influence on later garden design. Like a palimpsest, Dalley unscrambles the many legends that have built up around the Garden, including the parts played by Semiramis and Nebuchadnezzar, and following the evolution of its design, she shows why this Garden deserves its place alongside the Pyramids and the Colossus of Rhodes as one of the most astonishing technical achievements of the ancient world.

[Investigating Local Knowledge](#) - Paul Sillitoe 2019-05-23

Originally published in 2004. Local knowledge reflects many generations of experience and problem solving by people around the world, increasingly affected by globalizing forces. Such knowledge is far more sophisticated than development professionals previously assumed and, as such, represents an immensely valuable resource. A growing number of governments and international development agencies are recognizing that local-level knowledge and organizations offer the foundation for new participatory models of development that are both cost-effective and sustainable, and ecologically and socially sound. This book provides a timely overview of new directions and new approaches to investigating the role of rural communities in generating knowledge founded on their sophisticated understandings of their environments, devising mechanisms to conserve and sustain their natural resources, and establishing community-based organizations that serve as forums for identifying problems and dealing with them through local-level experimentation, innovation, and exchange of information with other societies. These studies show that development activities that work with and through local knowledge and organizations have several important advantages over projects that operate outside them. Local knowledge informs grassroots decision-making, much of which takes place through indigenous organizations and associations at the community level as people seek to identify and determine solutions to their problems.

Khurafat, Tahyul & Mistik di Alam Melayu - Zahiruddin Zabidi 2020-10-27

Persoalan yang paling besar dalam kehidupan seorang manusia yang berfikir adalah tentang siapakah Tuhan mereka dan apakah hakikat Tuhan itu sendiri? Selain itu, soalan seperti, "Dari mana kita wujud?", "Mengapa kita wujud?", dan "Ke manakah kita selepas kewujudan ini?" merupakan soalan pemikiran dan falsafah yang menjadi asas kepada pemikiran falsafah jauh sebelum Nabi Muhammad SAW menerimanya wahyunya yang pertama. Soalan-soalan tersebut tidak mampu sewenang-wenangnya dijawab hatta oleh ahli fikir yang agung sekalipun. Seinggalah manusia mendapat petunjuk wahyu daripada Sang Pencipta mereka yang berkomunikasi dan menyampaikan watikah-watikah khas melalui pengantara untuk mengingatkan hakikat keberadaan dan kewujudan mereka atas muka bumi ini, ia adalah kesengajaan Sang Pencipta sebagai ujian untuk mengetahui hamba-Nya yang mana patuh dan taat serta sebaliknya. Tujuannya apa? Tiada lain melainkan untuk menunjukkan kemahakuasaan-Nya semata-mata. Tuhan yang menciptakan segala makhluk menjadikan kepercayaan kepada kewujudan-Nya sebagai ujian iman yang paling besar kepada makhluk yang ditaklifkan iaitu manusia dan jin. Selain daripada keduanya tiada beban tanggungjawab yang akan dipersoalkan kelak di akhirat, ia adalah kemuliaan sekali gus adalah beban yang maha berat.

Perubatan Tradisional: Aplikasi Semasa (Penerbit USM) - Darlina Md. Naim 2017

Kesemua makalah yang dimuatkan dalam buku ini mempunyai keistimewaannya tersendiri serta mempunyai hubung kait yang sangat rapat antara satu sama lain. Kaedah perubatan tradisional yang dilakukan secara turun-temurun oleh sesuatu masyarakat biasanya menggunakan sumber alam semula jadi sebagai bahan pengubatan seperti tumbuh-tumbuhan dan haiwan. Oleh sebab sumber tersebut merupakan anugerah alam, maka terdapat beberapa persamaan daripada segi bahan dan kaedah pengubatan yang dipraktikkan oleh masyarakat berbilang bangsa di Malaysia. Perbezaan kaedah pengubatan dan bahan-bahan yang digunakan oleh setiap masyarakat yang berlainan akan menjadikan kaedah tersebut unik untuk mereka. Oleh itu, apa-apa jua kaedah atau cara perawatan tradisional yang diamalkan perlu dipelihara kerana selain menjadi wadah penyembuhan penyakit, amalan tersebut juga akan menjadi sinonim dengan sesuatu bangsa ataupun masyarakat.
