## **The Horrid Looking Glass: Reflections on Monstrosity** - 2020-09-25

From the fictional world of vampires, zombies, and invaders from other worlds, to the very real world of revolutionary France and in between, the nature of the monster encompasses the very quality that makes them so believable - that which we perceive as 'other'. While there is a commonality in this otherness, the monster lurking in the shadows, concealed in darkness or conjured with a few lines from a horror novel suggests the monster as one onto which we are free to project the most distorted and un-human features. In each chapter of this volume, you will discover that the way in which we project what is monstrous is not a singular other but is in fact a part of our own self-identity. The greatest horror of the monster is not that it stands apart, but that once we pull it from the shadow of our own projected imagination we discover that that the monster we fear is also bound to our own mirror image. To look at the monster, to name that which must never be named, is to look upon a reflection and embrace a part of our nature we do not wish to see.

## **Reflections on the Sacrificial Death of Jesus Christ** - Jason Tatlock

2019-10-03

The sacrificial nature of Jesus' crucifixion stands at the core of the Christian faith, and it serves as a focal point for the forty days of Lent. The essential meaning of his death as a victim of sacrifice is widely recognized, but there is more to the sacrificial representation than many realize. Jesus is not, for example, described in the New Testament only as a Passover lamb. That type of lamb sacrifice had nothing to do with addressing sin. His sacrifice involved concepts beyond Passover. Jesus and his early followers drew upon Jewish Scriptures to describe his death in light of several other Israelite practices and traditions, such as Day of Atonement rituals, guilt-sacrifice, and more. In this book, Tatlock draws upon his understanding of ancient sacrifice to explain the complex portrayal of the crucifixion in the New Testament. He shares about his personal challenges and insights in a series of daily reflections for the Lenten season or for any other time of the year.

**Contemplations on the starry heavens. A winter-piece** - James Hervey 1825

## *Looking East in Winter* - Rowan Williams 2021-06-24

In many ways, we seem to be living in wintry times at present in the Western world. In this new book, Rowan Williams, former Archbishop of Canterbury and a noted scholar of Eastern Christianity, introduces us to some aspects and personalities of the Orthodox Christian world, from the desert contemplatives of the fourth century to philosophers, novelists and activists of the modern era, that suggest where we might look for fresh light and warmth. He shows how this rich and diverse world opens up new ways of thinking about spirit and body, prayer and action, worship and social transformation, which go beyond the polarisations we take for granted. Taking in the world of the great spiritual anthology, the *Philokalia*, and the explorations of Russian thinkers of the nineteenth and twentieth centuries, discussing the witness of figures like Maria Skobtsova, murdered in a German concentration camp for her defence of Jewish refugees, and the challenging theologies of modern Greek thinkers like John Zizioulas and Christos Yannaras, Rowan Williams opens the door to a 'climate and landscape of our humanity that can indeed be warmed and transfigured'. This is an original and illuminating vision of a Christian world still none too familiar to Western believers and even to students of theology, showing how the deep-rooted themes of Eastern Christian thought can prompt new perspectives on our contemporary crises of imagination and hope.

## **Daily Reflections on Divine Mercy** - John Paul Thomas 2016-03-17

"Daily Reflections on Divine Mercy" was written to provide an awakening to the abundant Mercy of God. It offers daily reflections and prayers to help deepen the day-to-day faith life of every Catholic so that you can understand the abundance of Mercy poured forth from the Heart of our Savior as it is revealed in the writings of Saint Maria Faustina Kowalska. "Divine Mercy in My Soul: Diary of Saint Maria Faustina Kowalska" is soon to become a classic spiritual book that everyone is encouraged to read in their lifetime. However, many find this invitation intimidating, not just because of the width of her book, but because of the depth of its message on The Divine Mercy in each of Saint Faustina's notebook entries. This book, "Daily Reflections on Divine Mercy," was written with the hope of guiding you through Saint Faustina's Diary and her six notebooks of reflections. It can be used on its own to help you pause and reflect on the beauty of Jesus' messages to her, or as a companion book, as you simultaneously read Saint Faustina's Diary. "Daily Reflections on Divine Mercy" offers 365 daily teachings, reflections and prayers based upon the pages of Saint Faustina's Diary. The structured way to use this daily reflection book is to do just that...reflect upon one page each day. However, some may feel called to skip around a bit, read a few

reflections at a time, or return to a particular reflection through which God spoke to you. Therefore, though this book was written with the intent of providing one reflection for each day of the year, the best way to use it is any way you feel called and the way that benefits your relationship with God the most. The first paragraph for each day offers this author's insights to the words and teachings of Saint Faustina. The section of her Diary used for the day's teaching is marked so that the reader can also read her Diary first hand so as to see the primary source that the author of this book took inspiration from for that day's reflection. Though the primary text of the Diary is never quoted, nor are the reflections of this book exact representations of the Diary, they do provide the foundational basis for the spiritual message shared in each reflection. The second paragraph for each day offers a short reflection put more as a question to the reader. It offers the same insight in a different format so as to enter more deeply into the message of the day. Finally, each daily reflection ends with a prayer focused upon the message and reflection for that day. The reader is encouraged to pray this prayer several times. Ideally, it is prayed first thing in the morning, again during the day, and again at night as an examination on how well the daily message was received. As you seek to survive the world we live in, allow these pages to be a font of Mercy for you from God. Allow God's Divine Mercy to penetrate your heart so that you will know the abundance of His love and be more prepared to share that love with others.

Flight to Eternal Happiness is a collection of short reflections on what I have learnt over the years about the secrets of a joyful living. This is a great read for someone who wants to immerse in self-reflection and ponder about what resides within. Be it the 'Ocean', 'Moon', or the 'Bluebird', nature has the perfect ways to explain some of the deep secrets of joyful living. Many times, the cause of our problems, is not the problem per se, but the person having the problem. So long as the mind believes the problem exists, everything around the problem starts to magnify and compound. But when the mind understands its true nature, we often realise there is no underlying problem as such. And all that remains is bliss!

Awareness Jia Tolentino is a peerless voice of her generation, tackling the conflicts, contradictions, and sea changes that define us and our time. Now, in this dazzling collection of nine entirely original essays, written with a rare combination of give and sharpness, wit and fearlessness, she delves into the forces that warp our vision, demonstrating an unparalleled stylistic potency and critical dexterity. *Trick Mirror* is an enlightening, unforgettable trip through the river of self-delusion that surges just beneath the surface of our lives. This is a book about the incentives that shape us, and about how hard it is to see ourselves clearly through a culture that revolves around the self. In each essay, Tolentino writes about a cultural prism: the rise of the nightmare social internet; the advent of scamming as the definitive millennial ethos; the literary heroine's journey from brave to blank to bitter; the punitive dream of optimization, which insists that everything, including our bodies, should become more efficient and beautiful until we die. Gleaming with Tolentino's sense of humor and capacity to elucidate the impossibly complex in an instant, and marked by her desire to treat the reader with profound honesty, *Trick Mirror* is an instant classic of the worst decade yet. **Searching Within** - Belsebuub 2017-09-27

A true spiritual journey begins within. The search for who we are, and the deeper purpose of existence, is ultimately an inner quest. *Searching Within* provides the tools and information to set out on this inward journey. It explains why acquiring self-knowledge is so important for any kind of profound inner change, and how it can bring many benefits to one's life and the world. It describes how using the timeless principles of self-discovery, one can observe and understand their subconscious, with its many drives and desires, and uncover the causes of suffering within themselves--and at the same time, develop their consciousness, the source of inner peace and love, and the spiritual part each person carries within. Interspersed throughout the book are a series of the most effective and powerful exercises for self-discovery, which can be put into practice in daily life, and used to acquire one's own personal experience. With detailed, clear, precise, and yet simple explanations, this book is the most effective handbook on self-discovery there is and provides a firm foundation and beginning to the inner journey back to source. If taken, the journey leads us further and further within, and at the same time, deeper and deeper into the mysteries of creation. As we penetrate into our own psyche, we penetrate into the very heart of the cosmos. If taken far enough, this journey leads to the reunion with one's divine Being and the very source of creation itself. Mark Pritchard (writing with the name Belsebuub) is the author of a number of books on spirituality, out-of-body experiences, dreams, self-discovery, and esoteric knowledge. He has appeared on radio and television programs internationally, and writes from decades of spiritual and mystical experience.

Looking Ahead - Charles Lee Holland 2017-08-04

*Looking Ahead* considers Christianity in our time as it confronts the crisis of the relevance of the church and the challenge facing biblical theology. The reflections and observations in this book are autobiographical in nature because they mirror the personal perspective of one who for sixty-five years has sought to communicate the Christian faith with intellectual and spiritual integrity. In the process, the author

provides personal contemporary interpretations of the tenets of the Apostles Creed and some of the familiar words of our common religious vocabulary. Ultimately, the summary synthesis holds that historic Christianity must and will prevail triumphantly in this era of unparalleled testing.

*Cross-Cultural Reflections on Chinese Aesthetics, Gender, Embodiment and Learning* - Eva Kit Wah Man 2020-01-29

This book gathers research and writings that reflect on traditional and current global issues related to art and aesthetics, gender perspectives, body theories, knowledge and learning. It illustrates these core dimensions, which are bringing together philosophy, tradition and cultural studies and laying the groundwork for comparative research and dialogues between aesthetics, Chinese philosophies, Western feminist studies and cross-cultural thought. Pursuing an interdisciplinary approach, the book also integrates philosophical enquiries with cultural anthropology and contextual studies. As implied in the title, the main methodologies are cross-cultural and comparative studies, which touch on performances in art and aesthetics, social existence and education, and show that philosophical enquiries, aesthetical representation and gender politics are simultaneously historical, living and contextual. The book gathers a wealth of cross-cultural reflections on philosophical aesthetics, gender existence and cultural traditions. The critical thinking within will benefit undergraduates, postgraduates and researchers in the area of comparative philosophies. It blends academic rigor with personal reflection, which is a critical practice in feminist philosophy itself.

**Reflections on Baroque** - Robert Harbison 2002-09-01

From its beginnings in the seventeenth century, the Baroque embraced the whole of Catholic Europe and infiltrated Protestant England, Orthodox Russia and even Muslim Turkey. Architecture, paintings, poetry, music, natural science and new forms of piety all have their places on the Baroque map. In this surprising reinterpretation of the Baroque, Robert Harbison offers new readings that stress its eccentric and tumultuous forms, in which a destabilized sense of reality is often projected onto the viewer. This strange, subjectively inclined world is manifested in such bizarre phenomena as the small stuccoed universes of Giacomo Serpotta, the Sacred Mounts of Piedmont and the grimacing heads of F. X. Messerschmidt. Harbison explores the Baroque's metamorphoses into later styles, particularly the Rococo, and, in an unexpected twist, pursues the Baroque idea into the nineteenth and twentieth centuries, proposing provocative analyses of pastiches or imitations (in *Der Rosenkavalier* and the work of Aubrey Beardsley) or resemblances (deliberate or not) in Czech Cubism and Frank Gehry's architecture. Reflections on Baroque demonstrates that the Baroque impulse lives on in the twenty-first century imagination.

*Reflections on the Psalms* - C. S. Lewis 2017-02-14

A repackaged edition of the revered author's moving theological work in which he considers the most poetic portions from Scripture and what they tell us about God, the Bible, and faith. In this wise and enlightening book, C. S. Lewis—the great British writer, scholar, lay theologian, broadcaster, Christian apologist, and bestselling author of *Mere Christianity*, *The Screwtape Letters*, *The Great Divorce*, *The Chronicles of Narnia*, and many other beloved classics—examines the Psalms. As Lewis divines the meaning behind these timeless poetic verses, he makes clear their significance in our daily lives, and reminds us of their power to illuminate moments of grace.

**The Road to Eternal Life** - Michael Casey 2012-09-01

In the Prologue of his Rule, St. Benedict maps out the road that leads to heaven; he lays the foundation for life in a community that seeks God. The themes that are present throughout the Rule - obedience, humility, prayer, fear of the Lord, eternal life - are grounded in the Prologue. By reflecting on the Prologue one verse at a time, Michael Casey, OCSO, delves into the richness of meaning that can be found in Benedict's words. These reflections, first given as talks and made available on his community's web site, build a bridge between the sixth-century text and twenty-first-century Christians. In *The Road to Eternal Life*, Casey invites readers to reflect on the Prologue in light of their own experiences, to seek the road that leads to salvation.

*Economics Through the Looking-Glass* - R.A. Rayman 2019-06-04

Published in 1998. In spite of spectacular improvements in market flexibility, the characteristics of the past twenty years are slow growth and high unemployment. *Economics Through the Looking-Glass* exposes the theoretical fallacy at the heart of the New Economic Orthodoxy. The fallacy lies in treating the economy as a "single-gear" machine guaranteed to operate at its full employment potential as long as it benefits from the lubricant of perfectly flexible markets (in a Walrasian Utopia of continuous market-clearing equilibrium). Unemployment is thereby reduced to a structural problem of market imperfection. As a cure for unemployment, market flexibility is presumed to be adequate; as a cure for inflation, monetary restriction is presumed to be safe. The flaw in Orthodox logic is exposed by a demonstration that a monetary economy operates as a 'multi-gear' machine. Unless it is in 'top-gear', market flexibility (even of Utopian perfection) is not sufficient for full employment. 'Single-gear' Economic Orthodoxy is shown to have developed, not as a science, but as a religion beginning with Adam Smith's revelation of the Law of Competition. A Looking-Glass journey backwards in time from Adam Smith uncovers his suppression of the Law of Circulation and exposes the dangerous delusion of Orthodox economic policy. As a weapon against unemployment, market flexibility is inadequate; as a weapon against inflation, monetary restriction is unsafe. The 'multi-gear' alternative heralds the final stage of economic liberalisation: deregulation of the market for money. The rescue of interest rates from political or central bank interference and the control of inflation by a mechanism triggered by market forces would put an end to the Orthodox policy of maintaining unemployment above its natural market rate by misguided monetary intervention.

*The Way to Eternal Life* - Francis Wagner 2014-08-26

The way to Eternal Life is through the Cross, and to be effective, it requires our cooperation—the loving gift of self in response to God's love for us. God's desire to involve us in his merciful act of redemption. This book is intended to be an extended meditation on that mystery. It is not a devotional guide on the Stations of the Cross in the traditional sense—though it can certainly be used as such. Rather, each Station offers avenues of reflection connecting the Cross of Christ with our own.

*The Well Eternal* - Daniel Thomas 2019-07-22

Jacob set his head on a "stone-pillow", and he dozed off. "He dreamt of a stairway ('ladder') that rested on the ground, with its top reaching up to the heavens. On it, he saw the angels of God, going up (ascending) and descending." (Genesis 28: 11-12) And there was the LORD above the top-rung, saying; "I AM the Lord, the God of Abraham, and your father Isaac. In you, and your descendants, all the families of the earth will find blessing. I AM with you. I will bring you back to this land. I will not leave you, until I (the Lord) have done all that I promised." (Genesis 28: 14-15) Now, fast forward to the arrival of the Messiah. "Philip, who was from Bethsaida (the same town as Andrew and Peter) found Nathaniel, and enthusiastically to him; 'We've found the One about whom Moses wrote, whom the prophets spoke of, the Messiah, Yeshua, the son of Joseph.'" (John 1: 45) Nathaniel's dismissive response illustrates just how presumptuous human nature can be; quick to jump to the wrong conclusion based limited understanding. "Can anything good come from Nazareth?" (John 1: 46) He errantly assumed that "nothing of value" could come from the sleepy "backwards" village of Nazareth. Philip was undaunted; telling Nathaniel to "come and see!" Yeshua later explained; "You shall see even greater things than this. You will see the sky (the heavens) opened, and the angels of God going up (ascending) and descending on the Son of Man." (John 1: 50-51) A person's willingness to believe (faith) activates God's faithfulness to promises. The miracle of Israel is a testament to the restorative power of God...Eternal. And the Messiah's story is a reconstituted version of "Jacob's (Israel's) journey." "You are My witnesses. I have chosen you as My servant, so that you can know Me. I AM the LORD." (Isaiah 43: 10) Those with "eyes of faith" witness "Jacob's ladder", personified.

**Born is Unborn** - Anup Rej 2015-03-10

God appears in the mind of a physicist and an existentialist in a puzzling manner, which creates shock and astonishment that the scientist cannot overcome for the rest of his life. Since then he gets confused about

finding answers about the true nature of the reality and the mystery of the existence of God. A highly creative person, with wide knowledge in many fields of science and arts, grapples all his life to understand these personal experiences, which defy all scientific knowledge and reason. Whenever he manages to harness enough doubts and attempts to get rid of the supernatural world, which keeps his life a captive of a weird mental phenomenon that cannot be understood by any intellectual reasoning, God appears again and again. He gives messages with such clarity of "illumination" that all defenses of reason, which a scientist may erect with his intellectual capacity, fall apart. Judging from scientific perspective many neurologists would like to interpret such mental phenomenon as caused by abnormal brain activities, and explain God as a delusion rising from malfunctioning of the brain. The book will throw lights upon the questions: "Do these experiences represent a case of a brain damage, resulting in wrong neural circuitry, which generate the messages of God in the mind, or does there truly exist God, who is beyond intellectual comprehension of even a very sophisticated human mind? After experiencing continuous dilemma and conflicts for more than fifty years the nuclear scientist and a cosmologist, who was a believer of the western existential philosophy in his young age, remains at bay without finding any convincing answer. This book reveals a hidden world which has disturbed, puzzled and created agony and despair on one side, and illumined the mind with knowledge and vision, not accessible through intellectual process of the mind, on the other hand. It is a story of pain and joy, suffering followed by profound ebullience of a spirit which is one with the cosmos and resides in us.
