[The Curious Bird Lover's Handbook](#) - Niall Edworthy 2018-02-27

'A revelation for anyone with the slightest interest in the feathered friends visiting their gardens' - Garden News You don't have to be a dedicated birdwatcher to be a bird lover. Millions of us love the sight and sound of them. And yet most of us know very little about their remarkable behaviour, incredible diversity and the story of their evolution. This handbook sets about answering every interesting question there is to ask about birds. How do migrating birds know where to go? Are birds really descended from dinosaurs? How do birds have sex? There are over 10,000 species in the world, including over 500 in Britain, some rare and endangered, some bizarre and beautiful, others common and familiar. As this captivating and often humorous handbook reveals, all of them are fascinating. Filled with beautiful illustrations, The Curious Bird Lover's Handbook is perfect for experienced twitchers and those who are simply captivated by the beauty of birds and would like to

learn more about them. - The hardback edition titled "Bald Coot and Screaming Loon" was published in 2009. This paperback edition has been updated and includes a new foreword from the author.

RSPB Pocket Guide to British Birds - Marianne Taylor 2022-09-27
A compact, lightweight and informative guide to 310 of the most common birds found in the UK. RSPB Pocket Guide to British Birds is a compact, lightweight and informative field guide, featuring 310 bird species regularly seen in the UK. Species are illustrated in all distinct plumage forms likely to be observed in the wild by renowned bird artist Stephen Message, and a detailed distribution map for the British Isles is also provided. Concise text covers appearance, behaviour and voice - focusing on key identification points - and also outlines where you will find the species, describes its seasonal movements and includes the latest UK population data. Finally, confusion species are cross-referenced, with their most important and easily noted differences from the subject species described. A comprehensive introduction provides a guide on how and where to find birds, and how to make the most useful and rewarding observations for newcomers to birdwatching. Uniquely, this guide also provides images and descriptions for not only a selection of rarer visitors, but also for a range of domestic species and certain commonly observed aberrant forms of more familiar birds, all of which are omitted from most field guides but can cause great confusion for beginners when encountered in the wild.

Birds - Peter Holden 2006

The 'Usborne Spotter's Guides' series offers enthusiasts a range of pocket-sized field guides that help identify animals, plants, minerals and astronomical objects. Each title contains glossaries, maps, reference materials and illustrations.

Birds of the Mediterranean - Paul Sterry 2004

Covering all the species of birds occurring in the areas bordering the Mediterranean, this guide is illustrated throughout with stunning photographs. The regions examined cover some of the most distinctive and bird-rich habitats in Europe, the Middle East and North Africa, places as popular with sun-seeking holidaymakers as they are with birders. Designed to appeal to both audiences, the guide features photographs of the region's birdlife, with concise descriptive text on facing pages. Digital manipulation of the photographs has been used to ensure a consistent depiction of light conditions, making comparisons between the images easier.

Country Walks - Karen Goaman 2009

Young children will love identifying over 100 species of birds, mammals, insects, flowers and trees that can be found during a normal country walk.

Look Inside Nature - Minna Lacey 2018-04

An inspiring book that explores the wonders of nature, with gorgeous illustrations and ingenious flaps. Look up in the trees, behind the reeds or under the ground to see what's living there, and discover how plants grow and make seeds. Full of surprises and beautifully designed flaps to keep enquiring minds entertained. Over 50 flaps of different sizes and shapes to open and one big gatefold. Young readers can discover amazing facts about birds, insects, mammals and reptiles, how they hunt, fight and build homes, where they live and how they care for their young.

Woodland Life - Sue Jacquemier 2009-01-01

A brand new title from the popular Spotter's Guides series, this accurately illustrated and easy-to-use book is the essential companion for

everyone who enjoys nature and has ever asked, "What's that?" Young nature enthusiasts will love learning to identify over 140 flowers, trees, birds, insects and other woodland wildlife. Ideal field guides for both children and adults and incredible value for money.

A Short, Hopeful Guide to Climate Change - Oisín McGann
2022-04-26

What is Climate Change? How can it be stopped? And what can young people do to help the fight? Author Oisín McGann explains Climate Change science, and encourages young people to be part of positive change by getting involved in the global movement to fight humanity's biggest challenge. Relentless negative news stories about Climate Change are a source of anxiety for many young people, while others simply disengage from what seems like a hopeless situation. This book presents an optimistic, hopeful vision of a world engaged in a huge collective effort to build a better, more sustainable future for everyone. Published in collaboration with Friends of the Earth, this might be the most eco-friendly children's book ever published! Vegan inks, sustainably produced with all recycled materials and fully recyclable: this book is part of the solution.

National Trust: Robins, Wrens and Other British Birds - 2017-03-02

Intended for spotters both young and old, this title contains cards, each covering a different species of tree, flower or bird, illustrating its distinguishing features and statistics such as size and habitat to allow young nature enthusiasts to spot them more easily. It also features illustrations.

Flight Calls - John R. Nelson 2019-08-23

The paths of different birds look like double helixes, flowing strands of hair, and migrating serpents, and they beckon with calls that have definite meanings. These mysterious creatures inspire growing numbers of birders in their passionate pursuit of new species, and writer John R. Nelson is no exception. In *Flight Calls*, he takes readers on explorations to watch, hear, and know Massachusetts's hummingbirds, hawks, and

herons along the coasts and in the woodlands, meadows, and marshes of Cape Ann, Cape Cod, the Great Marsh, Mount Auburn Cemetery, the Quabbin wilderness, Mount Wachusett, and elsewhere. With style, humor, and a sense of wonder, Nelson blends his field adventures with a history of the birding community; natural and cultural history; bird stories from authors such as Henry David Thoreau, Emily Dickinson, and Mary Oliver; current scientific research; and observations about the fascinating habits of birds and their admirers. These essays are capped off with a plea for bird conservation, in Massachusetts and beyond.

Nature Spotter - DK 2021-05-06

Discover over 120 species of plants, birds, insects and animals! What birds can you hear right now? What trees are growing at your school? Where do badgers hide during the daytime?
