

Ethics History Theory And Contemporary Issues

Eventually, you will entirely discover a additional experience and execution by spending more cash. still when? reach you receive that you require to get those every needs past having significantly cash? Why dont you try to acquire something basic in the beginning? Thats something that will guide you to understand even more regarding the globe, experience, some places, subsequently history, amusement, and a lot more?

It is your extremely own epoch to feint reviewing habit. along with guides you could enjoy now is **Ethics History Theory And Contemporary Issues** below.

Ethics - Leathard, Audrey 2007-01-10

Ethics has been addressed in health care, but relatively little attention has been paid to the subject in the social care sector. This book redresses the balance by examining theory, research, policy and practice in both fields. The importance of this approach is reflected in the growing emphasis on ethical issues in research and practice.

Neuroethics - Martha J. Farah 2010-07-16

Explores the ethical, legal, and societal issues arising from brain imaging, psychopharmacology, and other new developments in neuroscience. Neuroscience increasingly allows us to explain, predict, and even control aspects of human behavior. The ethical issues that arise from these developments extend beyond the boundaries of conventional bioethics into philosophy of mind, psychology, theology, public policy, and the law. This broader set of concerns is the subject matter of neuroethics. In this book, leading neuroscientist Martha Farah introduces the reader to the key issues of neuroethics, placing them in scientific and cultural context and presenting a carefully chosen set of essays, articles, and excerpts from longer works that explore specific problems in neuroethics from the perspectives of a diverse set of authors. Included are writings by such leading scientists, philosophers, and legal scholars as Carl Elliot, Joshua Greene, Steven Hyman, Peter Kramer, and Elizabeth Phelps. Topics include the ethical dilemmas of

cognitive enhancement; issues of personality, memory and identity; the ability of brain imaging to both persuade and reveal; the legal implications of neuroscience; and the many ways in which neuroscience challenges our conception of what it means to be a person. Neuroethics is an essential guide to the most intellectually challenging and socially significant issues at the interface of neuroscience and society. Farah's clear writing and well-chosen readings will be appreciated by scientist and humanist alike, and the inclusion of questions for discussion in each section makes the book suitable for classroom use. Contributors Zenab Amin, Ofek Bar-Ilan, Richard G. Boire, Philip Campbell, Turhan Canli, Jonathan Cohen, Robert Cook-Degan, Lawrence H. Diller, Carl Elliott, Martha J. Farah, Rod Flower, Kenneth R. Foster, Howard Gardner, Michael Gazzaniga, Jeremy R. Gray, Henry Greely, Joshua Greene, John Harris, Andrea S. Heberlein, Steven E. Hyman, Judy Iles, Eric Kandel, Ronald C. Kessler, Patricia King, Adam J. Kolber, Peter D. Kramer, Daniel D. Langleben, Steven Laureys, Stephen J. Morse, Nancey Murphy, Eric Parens, Sidney Perkowitz, Elizabeth A. Phelps, President's Council on Bioethics, Eric Racine, Barbara Sahakian, Laura A. Thomas, Paul M. Thompson, Stacey A. Tovino, Paul Root Wolpe

The Moral Background - Gabriel Abend 2016-05-31

In recent years, many disciplines have become interested in the scientific study of morality. However, a conceptual framework for this work is still

lacking. In *The Moral Background*, Gabriel Abend develops just such a framework and uses it to investigate the history of business ethics in the United States from the 1850s to the 1930s. According to Abend, morality consists of three levels: moral and immoral behavior, or the behavioral level; moral understandings and norms, or the normative level; and the moral background, which includes what moral concepts exist in a society, what moral methods can be used, what reasons can be given, and what objects can be morally evaluated at all. This background underlies the behavioral and normative levels; it supports, facilitates, and enables them. Through this perspective, Abend historically examines the work of numerous business ethicists and organizations—such as Protestant ministers, business associations, and business schools—and identifies two types of moral background. "Standards of Practice" is characterized by its scientific worldview, moral relativism, and emphasis on individuals' actions and decisions. The "Christian Merchant" type is characterized by its Christian worldview, moral objectivism, and conception of a person's life as a unity. *The Moral Background* offers both an original account of the history of business ethics and a novel framework for understanding and investigating morality in general.

Ethics Theory and Business Practice - Mick Fryer 2014-10-27

In his ground-breaking new textbook, Mick Fryer offers students of Business Ethics clear explanations of a range of theoretical perspectives, along with examples of how these perspectives might be used to illuminate the ethical challenges presented by business practice. The book includes: Realistic scenarios which gently introduce a theory and demonstrate how it can be applied to a real-life ethical dilemma that everyone can relate to, such as borrowing money from a friend Real organisational case studies in each chapter which illustrate how each theory can be applied to real business situations. Cases include Nike, Coca Cola, BMW, Shell, Starbucks and GSK 'Pause for Reflection' boxes and 'Discussion Questions' which encourage you to challenge the established notions of right and wrong, and empower you to develop your own moral code Video Activities in each chapter with accompanying QR codes which link to documentaries, films, debates and news items to get

you thinking about real-life ethical dilemmas Visit the book's companion website for self-test questions, additional web links and more at: study.sagepub.com/fryer

An Introduction to Health Care Ethics - Michael R. Panicola 2007

An ideal introduction to health care ethics for students who are unfamiliar with the subject area. Author-ethicists Michael Panicola, David Belde, John Paul Slosar, and Mark Repenshek have crafted a text grounded in rich theological and philosophical traditions and presented in an engaging manner. This text provides students with an understanding of the foundational aspects of health care ethics and leads them into a discussion of contemporary issues through the use of timely and challenging case studies. A unique focus on discernment and decision making brings the material to life for students.

Code of Ethics for Nurses with Interpretive Statements - American Nurses Association 2001

Pamphlet is a succinct statement of the ethical obligations and duties of individuals who enter the nursing profession, the profession's nonnegotiable ethical standard, and an expression of nursing's own understanding of its commitment to society. Provides a framework for nurses to use in ethical analysis and decision-making.

Essays on the History of Moral Philosophy - J. B. Schneewind 2010

J.B. Schneewind presents a selection of his published essays on ethics, the history of ethics and moral psychology, together with a new piece offering an intellectual autobiography. The essays range across the 17th, 18th, and 19th centuries, with a particular focus on Kant and his relation to earlier thinkers.

Intricate Ethics - F.M. Kamm 2008-09-18

"Reading F.M. Kamm's latest book is like watching a brilliant astronomer map an uncharted galaxy--the meticulousness and the display of mental stamina must inspire awe. There is a kind of beauty in the performance alone. *Intricate Ethics* is a major event in normative ethical theory by a living master of the subject.... In the end, professional moral philosophers cannot reasonably ignore *Intricate Ethics*.... Kamm continues to prove herself the most imaginative, detail-oriented

deontologist writing in English today... Professor Kamm is in a class by herself."--Jeffrey Brand-Ballard, Notre Dame Philosophical Reviews "The operative word in this masterful work is 'intricate.' Watching Kamm's mind dissect and reconstruct different cases is like watching a juggler, riding a unicycle, carrying on a conversation, while getting dressed. It is a glorious celebration of what moral philosophy does best, and what one of its most gifted practitioners can do to enlighten our understanding of the most pressing ethical issues of our time. But it is also a rich playground for empirically minded philosophers and psychologists who want to play with the clever class of dilemmas that Kamm has created, dilemmas that will both amuse and torture generations of people."--Marc Hauser is a Harvard College Professor and author of "Moral Minds" "Frances Kamm once again proves herself to be an astonishingly subtle and creative defender of a deontological outlook. Anyone at all interested in normative ethics will find something of value in *Intricate Ethics*. There are striking and original views on a wide range of topics. And no one--absolutely no one--compares to Kamm when it comes to constructing relevant test cases and carefully assessing our intuitive reactions to them. This is a master at work, at the height of her powers."--Shelly Kagan, Clark Professor of Philosophy, Yale University "Intricate Ethics fully justifies its title. It is as deep, subtle, imaginative, and analytically rigorous as any work in moral philosophy written in a great many years. It is dense with highly original and fertile ideas supported by powerful and ingenious arguments. This book amply confirms Frances Kamm's standing as one of the greatest living philosophers.--Jeff McMahan, Rutgers University "Kamm's virtuosity in hypothesizing cases in defense or refutation of moral principles remains unsurpassed. *Intricate Ethics* is also a testament to the fruitfulness of this rarefied method of ethics. One might have thought that, having already devoted several hundred path-breaking pages to the topic of nonconsequentialism in her earlier two-volume *Morality, Mortality*, it would have been impossible to break much new ground in this sequel. Yet what Kamm has to say here on the topics of harming and saving from harm is as novel, arresting, and insightful as ever."--Michael Otsuka, Professor of Philosophy, University College

London "Kamm ...is the most sophisticated of the contemporary exponents of "intuitionist" or "nonconsequentialist" ethics...No one else makes such extraordinarily meticulous and penetrating attempts to extract the principles behind our ordinary moral intuitions...I highly recommend it as an inclusive and subtle attempt to work out nonconsequentialism on an intuitionist basis. As a bonus, *Intricate Ethics* also offers searching analyses of the work of Peter Unger, Peter Singer, Bernard Gert, T.M. Scanlon, Daniel Kahneman and Amos Tversky."--Ingmar Persson, *Times Literary Supplement*
Economics and Ethics of Private Property - Hans-Hermann Hoppe 2006

The Variety of Values - Susan R. Wolf 2015

For over thirty years Susan Wolf has been writing about moral and nonmoral values and the relation between them. This volume collects Wolf's most important essays on the topics of morality, love, and meaning, ranging from her classic essay "Moral Saints" to her most recent "The Importance of Love." Wolf's essays warn us against the common tendency to classify values in terms of a dichotomy that contrasts the personal, self-interested, or egoistic with the impersonal, altruistic or moral. On Wolf's view, this tendency ignores or distorts the significance of such values as love, beauty, and truth, and neglects the importance of meaningfulness as a dimension of the good life. These essays show us how a self-conscious recognition of the variety of values leads to new understandings of the point, the content, and the limits of morality and to new ways of thinking about happiness and well-being.
Nietzsche and Contemporary Ethics - Simon Robertson 2020-06-19
Nietzsche is one of the most subversive thinkers of the western philosophical canon. Yet until recently, his ethics has been sidelined within Anglophone moral philosophy. Simon Robertson offers the first sustained, single-authored critical assessment of his ethical thought and its significance, arguing that Nietzsche raises well-motivated challenges to morality's objectivity, authority, and value. *Nietzsche and Contemporary Ethics* develops insightful arguments about ethical

objectivity, the pitfalls of internalising moral values, and the relation between good and bad. Robertson concludes by considering Nietzsche's broader import: how he challenges our usual views of what ethics itself is—and what it, and we, should be doing.

Ethics - Steven M. Cahn 2002

The most comprehensive collection of its kind, *Ethics: History, Theory, and Contemporary Issues*, 2/e is organized into three sections, providing instructors with flexibility in designing and teaching a variety of courses in moral philosophy. The first section, Historical Sources, moves from classical thought (Plato, Aristotle, Epicurus, and Epictetus) through medieval views (Augustine and Aquinas) to modern theories (Hobbes, Butler, Hume, Kant, Bentham, and Mill), culminating with leading nineteenth- and twentieth-century thinkers (Kierkegaard, Schopenhauer, Nietzsche, James, Dewey, Camus, and Sartre). The readings are printed in their entirety wherever possible. The second section, Modern Ethical Theory, includes many of the most important essays of the past century. The discussion of utilitarianism, Kantianism, egoism, and relativism continues in the work of major contemporary philosophers (Williams, Brandt, Feinberg, Foot, and Rachels). Landmark selections (Moore, Prichard, Ross, Ayer, Stevenson, Anscombe, Baier, Hare, Harman, and Gauthier) reflect concern with moral language and the justification of morality. The concepts of justice (Rawls) and rights (Feinberg) are explored, as well as recent views on the importance of virtue ethics (MacIntyre and Rachels) and an ethic influenced by feminist concerns (Held). In the third section, Contemporary Moral Problems, the readings present the current debates over abortion, euthanasia, famine relief, animal rights, the death penalty, and affirmative action. This second edition features expanded selections from Plato's *Republic*, Aristotle's *Nicomachean Ethics*, and Camus' *The Myth of Sisyphus*. It also includes articles by Michael Stocker on ethical theory; Jane English and Joel Feinberg on abortion; Thomas D. Sullivan on euthanasia; Hugo Adam Bedau on capital punishment; and Judith Jarvis Thomson, Robert Simon, and Steven M. Cahn on affirmative action.

Doing Ethics - Lewis Vaughn 2012-09-15

The most accessible and practical introduction to ethical theory, moral issues, and moral reasoning. *Doing Ethics* emphasizes that moral decision-making is an active process—something one does. It provides students with the theoretical and logical tools that a morally mature person must bring to that process, and it offers an abundance of readings and case studies for consideration and discussion. Real-world relevance and practical pedagogy have made *Doing Ethics* a leading book in the field.

Contemporary Issues in Management Accounting - Alnoor Bhimani 2006

Covering established and emerging areas in the fast changing field of management accounting, this work discusses accounting practices such as budgeting, costing, responsibility accounting and capital investment analysis.

The Development of Ethics - Terence Irwin 2011

Christian Ethics: A Very Short Introduction - D. Stephen Long 2010-07-29

This book provides both a short history of Christian ethics and looks at its basic sources as they arise from Judaism, Greco-Roman ethics, and Christianity

Exploring Ethics - Steven M. Cahn 2013-11

In this remarkably accessible, concise, and engaging introduction to moral philosophy, Steven M. Cahn brings together a rich, balanced, and wide-ranging collection of fifty readings on ethical theory and contemporary moral issues. He has carefully edited all the articles to ensure that they will be exceptionally clear and understandable to undergraduate students. The selections are organized into three parts—Challenges to Morality, Moral Theories, and Moral Problems—providing instructors with flexibility in designing and teaching a variety of ethics courses. Each reading is followed by study questions. The third edition of *Exploring Ethics* provides more coverage of contemporary problems, featuring new selections on euthanasia, capital punishment, animal rights, affirmative action, academic ethics,

the trolley problem, and the meaning of life. A Companion Website at www.oup.com/us/cahn offers a password-protected Instructor's Manual—containing a test bank, key terms with definitions, reading summaries, and PowerPoint lectures—and self-quizzes, vocabulary flashcards, and useful links for students.

Ethics in the Field - Jeremy MacClancy 2013-07-30

In recent years ever-increasing concerns about ethical dimensions of fieldwork practice have forced anthropologists and other social scientists to radically reconsider the nature, process, and outcomes of fieldwork: what should we be doing, how, for whom, and to what end? In this volume, practitioners from across anthropological disciplines—social and biological anthropology and primatology—come together to question and compare the ethical regulation of fieldwork, what is common to their practices, and what is distinctive to each discipline. Contributors probe a rich variety of contemporary questions: the new, unique problems raised by conducting fieldwork online and via email; the potential dangers of primatological fieldwork for locals, primates, the environment, and the fieldworkers themselves; the problems of studying the military; and the role of ethical clearance for anthropologists involved in international health programs. The distinctive aim of this book is to develop a transdisciplinary anthropology at the methodological, not theoretical, level.

Exploring Ethics - Steven M. Cahn 2019

In this remarkably accessible, concise, and engaging introduction to moral philosophy, Steven M. Cahn brings together a rich, balanced, and wide-ranging collection of fifty-two readings on ethical theory and contemporary moral issues. He has carefully edited all the articles to ensure that they will be exceptionally clear and understandable to undergraduate students. The selections are organized into three parts—Challenges to Morality, Moral Theories, and Moral Problems—providing instructors with flexibility in designing and teaching a variety of ethics courses. Each reading is followed by study questions. The fifth edition features twelve new articles and unparalleled representation of women philosophers, with nearly half of the essays authored or coauthored by

women. A password-protected Instructor's Manual is available on the book's Ancillary Resource Center. Visit the book's free, open-access Companion Website for additional student and instructor resources.

The Ethical Life - 2020

"A compact yet thorough collection of readings in ethical theory and contemporary moral problems - at the best price"--

A Companion to Business Ethics - Robert E. Frederick 2008-04-15

In a series of articles specifically commissioned for this volume, some of today's most distinguished business ethicists survey the main areas of interest and concern in the field of business ethics. Sections of the book cover topics such as the often easy relation between business ethics and capitalism, the link between business ethics and ethical theory, how ethics applies to specific problems in the business world, the connection between business ethics and related academic disciplines, and the practice of business ethics in modern corporations. Includes extensive, accessible discussion of all of the main areas of interest and debate in business ethics. Features all original contributions by distinguished authors in business ethics. Includes an annotated table of contents, bibliographies of the relevant literature and a list of internet sources of material on business ethics. Perfect, comprehensive book for use in business ethics courses.

Moral Philosophy: A Contemporary Introduction - Daniel R.

DeNicola 2018-11-30

Moral Philosophy: A Contemporary Introduction is a compact yet comprehensive book offering an explication and critique of the major theories that have shaped philosophical ethics. Engaging with both historical and contemporary figures, this book explores the scope, limits, and requirements of morality. DeNicola traces our various attempts to ground morality: in nature, in religion, in culture, in social contracts, and in aspects of the human person such as reason, emotions, caring, and intuition.

The International Encyclopedia of Ethics, 9 Volume Set - 2013-02-25

Unmatched in scholarship and scope, The International Encyclopedia of Ethics is the definitive single-source reference work on Ethics, available

both in print and online. Comprises over 700 entries, ranging from 1000 to 10,000 words in length, written by an international cast of subject experts. Is arranged across 9 fully cross-referenced volumes including a comprehensive index. Provides clear definitions and explanations of all areas of ethics including the topics, movements, arguments, and key figures in Normative Ethics, Metaethics, and Practical Ethics. Covers the major philosophical and religious traditions. Offers an unprecedented level of authority, accuracy and balance with all entries being blind peer-reviewed.

Law Enforcement Ethics - Brian D. Fitch 2013-03-22

Law Enforcement Ethics: Classic and Contemporary Issues for the New Millennium covers many of the important facets of law enforcement ethics, including the selection, training, and supervision of officers. Editor Brian D. Fitch brings together the works of a diverse task force with a vested interest in reducing officer misconduct—including law enforcement scholars, educators, and practitioners from a variety of disciplines—to present a comprehensive look at this critical subject that is gaining more attention in agencies and in the media today. The text covers topics on the roles of culture, environment, social learning, policy, and reward systems as they pertain to law enforcement ethics, as well as the ethics of force, interrogations, marginality, and racial profiling. This volume also covers several unique aspects of ethics, such as the role of Post-Traumatic Stress Disorder in misconduct (PTSD), cheating during law enforcement promotional practices, off-duty misconduct, and best practices in developing countries.

Ethics in Light of Childhood - John Wall 2010-08-12

Childhood faces humanity with its own deepest and most perplexing questions. An ethics that truly includes the world's childhoods would transcend pre-modern traditional communities and modern rational autonomy with a postmodern aim of growing responsibility. It would understand human relations in a poetic rather than universalistic sense as openly and interdependently creative. As a consequence, it would produce new understandings of moral being, time, and otherness, as well as of religion, rights, narrative, families, obligation, and power. Ethics in

Light of Childhood fundamentally reimagines ethical thought and practice in light of the experiences of the third of humanity who are children. Much like humanism, feminism, womanism, and environmentalism, Wall argues, a new childism is required that transforms moral thinking, relations, and societies in fundamental ways. Wall explores childhood's varied impacts on ethical thinking throughout history, advances the emerging interdisciplinary field of childhood studies, and reexamines basic assumptions in contemporary moral theory and practice. In the process, he does not just apply ethics to childhood but applies childhood to ethics—in order to imagine a more expansive humanity.

The Problems of Philosophy - Bertrand Russell 1924

History of Ethics - Daniel Star 2019-05-06

Is there an objective moral standard that applies to all our actions? To what extent should I sacrifice my own interests for the sake of others? How might philosophers of the past help us think about contemporary ethical problems? As the most recent addition to the Blackwell Readings in Philosophy series, *History of Ethics: Essential Readings with Commentary* brings together rich and varied excerpts of canonical work and contemporary scholarship to span the history of Western moral philosophy in one volume. Editors Star and Crisp, noted scholars in their fields, expertly introduce the readings to illuminate the main philosophical ideas and arguments in each selection, and connect them to broader themes. These detailed and incisive editorial commentaries make the primary source texts accessible to students while guiding them chronologically through the history of Western ethics. Structured around a thematic table of contents divided into three distinct sections, *History of Ethics* charts patterns in the development of ethical thought across time to highlight connections between intellectual movements. Selections range from the work of well-known figures such as Plato, Aristotle, Nietzsche, and Mill to the work of philosophers often overlooked by such anthologies, including Butler, Smith, Sidgwick, Anscombe, Foot, and Frankena. Star and Crisp skillfully arrange the

collection to connect readings to contemporary issues and interests by featuring examples such as Aquinas on self-defense and the doctrine of double effect, Kant on virtue, and Mill's *The Subjection of Women*. Written for students and scholars of ethics, *History of Ethics* is a comprehensive collection of readings with expert editorial commentary that curates the most important and influential work in the history of ethics in the Western world.

Legal Ethics and Legal Practice - Stephen Parker 1995

This is the first collection of essays on legal ethics which addresses the subject comparatively. There is no similar work in the US. The empirical research from which the conference originally sprang remains a rare example of collaborative research between academic and practising lawyers. From the professor's side, public concern at the cost and quality of justice is forcing them to look beyond practitioners' manuals and the trade press for ideas. From the academic side there is great interest in the study of ethics and culture in the legal profession and the answers which this study may provide to wider questions concerning the content and practice of law at the access to justice debate.

[A Theory of Justice](#) - John RAWLS 2009-06-30

Though the revised edition of *A Theory of Justice*, published in 1999, is the definitive statement of Rawls's view, so much of the extensive literature on Rawls's theory refers to the first edition. This reissue makes the first edition once again available for scholars and serious students of Rawls's work.

Social Ethics in a Changing China - Huaihong He 2015-10-13

Over the past half-century, China has experienced some incredible human dramas, ranging from Red Guard fanaticism and the loss of education for an entire generation during the Cultural Revolution, to the Tiananmen tragedy, the economic miracle, and its accompanying fad of money worship and the rampancy of official corruption. *Social Ethics in a Changing China: Moral Decay or Ethical Awakening?* provides a rich empirical narrative and thought-provoking scholarly arguments, highlighting the imperative for an ethical discourse in a country that is increasingly seen by many as both a materialistic giant and a spiritual

dwarf. Professor He Huaihong was not only an extraordinary firsthand witness to all of these dramas, he played a distinct role as a historian, an ethicist, and a social critic exploring the deeper intellectual and sociological origins of these events. Incorporating ethical theories with his expertise in culture, history, religion, literature, and politics of the country, He reviews the remarkable transformation of ethics and morality in the People's Republic of China and engages in a global discourse about the major ethical issues of our time. The book aims to reconstruct Chinese social ethics in an innovative philosophical framework, reflecting China's search for new virtues. Contents 1. Reconstructing China's Social Ethics 2. Historical and Sociological Origins of Chinese Cultural Norms 3. The Transformation of Ethics and Morality in the PRC 4. China's Ongoing Moral Decay? 5. Ethical Discourse in Reform Era China 6. Chinese Ethical Dialogue with the West and the World

Ethics - Barbara MacKinnon 2010

Learn about ethical theory and how these theories apply to contemporary moral debates using MacKinnon's acclaimed *ETHICS: THEORY AND CONTEMPORARY ISSUES*, Concise, International Edition. This book expertly balances ethical theory with today's most relevant moral issues, including torture, "partial birth" abortion, cloning, same-sex marriage, and Wikipedia and Google.

[Early Childhood Theories and Contemporary Issues](#) - Mine Conkbayir 2014-11-20

Having a good grasp of the theories of child development and how these translate into practice can make a positive difference to how you understand babies and children and the ways in which you can help them learn. This approachable guide offers easy access to a wide range of concepts, as well as classic and current theories, about how babies and children learn. Each chapter offers clear guidance on how to recognise the theory in action and suggests ways to test these ideas out in early years settings, supporting the development of reflective practice. Case studies are included throughout, along with questions to guide thinking and encourage readers to develop their practice. Summaries conclude

each chapter offering a quick reference of the theory examined and the benefits of applying it to practice. *Early Childhood Theories and Contemporary Issues* is an essential guide for all those looking to develop and enhance their practice in supporting child development within the early years.

Rossian Ethics - David Phillips 2019

W.D. Ross (1877-1971) was the most important opponent of utilitarianism and consequentialism in British moral philosophy between 1861 and 1939. In *Rossian Ethics*, David Phillips offers the first monograph devoted exclusively to Ross's seminal contribution to moral philosophy. The book has two connected aims. The first is to interpret and evaluate Ross's moral theory, focusing on its three key elements: his introduction of the concept of prima facie duty, his limited pluralism about the right, and his limited pluralism about the good. The metaethical and epistemological framework within which Ross develops his moral theory is the subject of the fifth and final chapter of the book. The second aim is to articulate a distinctive view intermediate between consequentialism and absolutist deontology, which Phillips calls "classical deontology." According to classical deontology the most fundamental normative principles are principles of prima facie duty, principles which specify general kinds of reasons. Consequentialists are right to think that reasons always derive from goods; ideal utilitarians are right, contra hedonistic utilitarians, to think that there are a small number of distinct kinds of intrinsic goods. But consequentialists are wrong to think that all reasons have the same weight for all agents. Instead there are a small number of distinct kinds of agent-relative intensifiers: features that increase the importance of certain goods for certain agents. Phillips claims that classical deontology combines the best elements of the moral theories of Ross and of Sidgwick, ultimately arguing that Ross is best interpreted as a classical deontologist.

Nicomachean Ethics - Aristotle 2012-03-06

Enduringly profound treatise, whose lasting effect on Western philosophy continues to resonate. Aristotle identifies the goal of life as happiness and discusses its attainment through the contemplation of philosophic

truth.

Doing Ethics - Lewis Vaughn 2015-09-15

The most accessible introduction to ethical theory, moral reasoning, and contemporary ethical issues--now shorter and more focused, and still the best value.

Ethics - Julia Driver 2013-05-20

Ethics: The Fundamentals explores core ideas and arguments in moral theory by introducing students to different philosophical approaches to ethics, including virtue ethics, Kantian ethics, divine command theory, and feminist ethics. The first volume in the new *Fundamentals of Philosophy* series. Presents lively, real-world examples and thoughtful discussion of key moral philosophers and their ideas. Constitutes an excellent resource for readers coming to the subject of ethics for the first time.

Being Ethical: Classic and New Voices on Contemporary Issues -

Shari Collins 2016-12-19

This anthology takes a broad approach to ethics, incorporating traditional topics and texts while bringing in voices and themes that are too often excluded. A substantial section on ethical theory is provided, as are readings on topics such as oppression, sex, identity, the environment, life and death, war and terror, and caring for others. Accessible introductions and discussion questions are included throughout to contextualize material for the student reader without playing favorites among the positions at issue.

Ethics - Steven M. Cahn 2011-09-01

Ethics: History, Theory, and Contemporary Issues, Fifth Edition, features sixty-nine selections organized into three parts, providing instructors with great flexibility in designing and teaching a variety of courses in moral philosophy. Spanning 2,500 years of ethical theory, the first part, *Historical Sources*, ranges from ancient Greece to the twentieth century. It moves from classical thought through medieval views to modern theories, culminating with leading nineteenth- and twentieth-century thinkers. The second part, *Modern Ethical Theory*, includes many of the most important essays of the past century. The discussion of

utilitarianism, Kantianism, egoism, and relativism continues in the work of major contemporary philosophers, while landmark selections reflect concern with moral language and the justification of morality. The concepts of duty, justice, and rights are explored, as well as recent views on cultural relativism and an ethic influenced by feminist concerns. In the third part, Contemporary Moral Problems, the readings present the current debates over abortion, euthanasia, famine relief, animal rights, environmentalism, and the use of torture in interrogations, as well as essays on death and the meaning of life. Wherever possible, each reading is printed in its entirety. The fifth edition features new readings from Cicero, Barbara Herman, and Judith Jarvis Thomson; an expanded selection from Joseph Butler's Fifteen Sermons; and a new translation of Kant's Groundwork for the Metaphysics of Morals. In addition, the book is supplemented for the first time by a robust support package. An Instructor's Resource CD contains reading summaries, essay questions, multiple-choice and true/false questions, PowerPoint-based lecture outlines, and relevant website links. A Companion Website at www.oup/us/cahn provides most of the material from the Instructor's Resource CD along with student resources including interactive self-quizzes, questions for discussion, and helpful links.

An Introduction to Moral Philosophy - Wolff, Jonathan 2020-09-01
From respected philosopher and writer Jonathan Wolff, this brief introduction to ethics stimulates independent thought, emphasizes real-

world examples, and provides clear and engaging introductions to key moral theories and the thinkers behind them. The new Second Edition offers expanded coverage of moral reasoning, as well as two thoughtful and contemporary new chapters on applying moral philosophy and the ethics of race. A companion primary source collection, Readings in Moral Philosophy, amplifies issues discussed in the text, connecting them to problems in applied ethics.

Ethics and Sport - M.J. McNamee 2002-09-11

The issues surrounding ethical controversies in sport are often touched on in the popular media. This book by leading international scholars in philosophy and the philosophy of sport provides systematic treatment of the ethics of sport from a range of perspectives. Part one includes essays which focus on the basis of sport as an activity that is inherently ethical. Part two concerns the nature of the oft-heard but seldom-clarified notion of fair play. Three essays are included which articulate substantively different interpretations of the concept all of which have different allegiances in ethical theory and practical consequences. Part three deals with ethical questions in physical education and coaching, and Part four, on contemporary issues, includes essays which focus on topics such as violence, conflict and deception. This book is accessible to a wide range of teachers and students in the field of sport and leisure studies. Contributions from international, highly regarded experts in the field to provide the reader with the systematic treatment of the ethics in sport from a diverse perspective.
