"By my Spirit" - Jonathan Goforth 101-01-01

Dr. A.T. Schofield says: "One thing to be borne in mind is that since the days of Pentecost there is no record of the sudden and direct work of the Spirit of God upon the souls of men that has not been accompanied by events more or less abnormal. It is, indeed, on consideration, only natural that it should be so. We cannot expect an abnormal inrush of Divine light and power, so profoundly affecting the emotions and changing the lives of men, without remarkable results. As well expect a hurricane, an earthquake, or a flood, to leave nothing abnormal in its course, as to expect a true Revival that is not accompanied by events quite out of our ordinary experience."

Music and the Ineffable - Vladimir Jankelevich 2003-07-28

Vladimir Jankélévitch left behind a remarkable oeuvre steeped as much in philosophy as in music. His writings on moral quandaries reflect a lifelong devotion to music and performance, and, as a counterpoint, he wrote on music aesthetics and on modernist composers such as Fauré, Debussy, and Ravel. *Music and the Ineffable* brings together these two threads, the philosophical and the musical, as an extraordinary quintessence of his thought. Jankélévitch deals with classical issues in the philosophy of music, including metaphysics and ontology. These are a

point of departure for a sustained examination and dismantling of the idea of musical hermeneutics in its conventional sense. Music, Jankélévitch argues, is not a hieroglyph, not a language or sign system; nor does it express emotions, depict landscapes or cultures, or narrate. On the other hand, music cannot be imprisoned within the icy, morbid notion of pure structure or autonomous discourse. Yet if musical works are not a cipher awaiting the decoder, music is nonetheless entwined with human experience, and with the physical, material reality of music in performance. Music is "ineffable," as Jankélévitch puts it, because it cannot be pinned down, and has a capacity to engender limitless resonance in several domains. Jankélévitch's singular work on music was central to such figures as Roland Barthes and Catherine Clément, and the complex textures and rhythms of his lyrical prose sound a unique note, until recently seldom heard outside the francophone world.

Water for Unity - Francesca Tuzzi 2015

A collection of short essays from 17 very well-known authors who have a solid scientific background or renown within their ancestral traditions. What they have in common is that each one, within their discipline, is aiming to use water's molecular structure and memory to improve our world. This book is connected to a worldwide movement which is going to organize at least four significant worldwide events during 2015 and 2016. The essayists themselves are part of this movement and readers can join too. They will experiment, for instance, with using intention to lower the radioactivity level of Fukushima's water. It is a very young movement but one that has already generated much interest.

Soulfulness - Brian Draper 2016-05-19

'Brian Draper is Britain's foremost popular spiritual thinker; he has no equals in linking the inner with the political and personal outer. This is a remarkably practical exploration of elusive yet core elements of our existence.' - Oliver James The beauty of mindfulness is that it's incredibly simple both to 'get' and to practise. And the results - increasingly backed by neuro-scientific evidence - are priceless: calmness and reduced stress,

more creativity, greater awareness, compassion. . . And yet there's a danger that mindfulness can be used in a purely consumerist and self-serving way to help people to become better adapted cogs in a still-toxic model of work and life. Brian Draper challenges us to live not just mindfully but soulfully. Not merely to be less stressed, but to flourish, dynamically and creatively - to be present - through living intentionally and compassionately.

Sviatoslav Richter - Bruno Monsaingeon 2002-09-15

Sviatoslav Richter was a dazzling performer but an intensely private man. Though world famous and revered by classical music lovers everywhere, he guarded himself and his thoughts as carefully as his talent. Fascinated, author and filmmaker Bruno Monsaingeon tried vainly for years to interview the enigmatic pianist. Richter eventually yielded, granting Monsaingeon hours of taped conversation, unlimited access to his diaries and notebooks, and, ultimately, his friendship. This book is the product of that friendship. Richter reveals himself as a man and an artist. Unsentimentally and with his characteristic dry humor and intelligence, the musician describes his poignant childhood and spectacular career, including his tumultuous early days at the Moscow Conservatory and his triumphant 1960 tour of the United States. His laconic recounting of playing in the orchestra at Stalin's surreal, interminable state funeral is riveting. Most important for music lovers, Richter discusses his influences and views on musical interpretation. He describes his encounters with other great Russian performers and composers, including Prokoviev, Shostakovich, Oistrakh, and Gilels. Candid sections from his personal journals offer his sober and unguarded impressions of dozens of performances and recordings--both his own and those of other

musicians. This volume offers readers the sizable pleasure of lingering in the thoughts and words of one of the most important pianists of the twentieth century. Unlike many other star performers, Richter was also an intellectual who had interesting things to say, particularly about the musician's proper role as interpreter of the composer's art. This alone makes the book worth reading. Sviatoslav Richter belongs on the shelves of everyone with a classical music collection and will also appeal to lovers of autobiography and admirers of Russian musical culture.

Theft from Delos - Mervyn Nel 2021-02-28

He thought of his wife and son. At this hour, they would be asleep, blissfully unaware of the ghastly events that were playing out on the Aegean. "We only have a small window of opportunity to get this job done before the night fishermen return to Mykonos and the morning fishermen go out. If they see us, they may become curious and ask what we are doing or worse still, inform the coast guard." Michael, an accounts executive from New York City, is devastated by the untimely death of his wife. His doctor recommends he takes a vacation. Michael travels to Greece, the ideal location to translate a nineteenth-century diary written by a French archaeologist, bought a few years prior at a book market in Paris. Unbeknown to him, the Aegean islands have recently experienced a horrific crime. During the theft of five ancient statues from the sacred island of Delos, fourteen archaeologists were murdered. With the help of Althea, a beautiful Greek lady from the island of Mykonos, Michael begins to translate the diary, but there are others who also have an interest in it. As a consortium of international agents carries out their investigation into the stolen statues, Michael finds himself an innocent participant, not only in their enthralling investigation but also in a kidnapping. It is a world that is foreign to him; a world fraught with intrigue and deception. "In 1930 I was the Head Archaeologist on the sacred island of Delos". Fabien stopped reading and looked at the Host. "I'm afraid this was where my grandfather started crying and rambling but I wrote down what he said as best I could. Shall I continue reading?" "Yes, do go on." "We hid the treasure. Looking back, I know that what we did was wrong. Please tell the Greek authorities about the treasure and ask her citizens to forgive a greedy and dying old man." Mervyn Nel graduated from the University of Johannesburg with a National Diploma in Personnel Management and Industrial Psychology. He has written multiple articles which have been published in mainstream magazines. After a long and fulfilling career as a Credit Evaluation Manager in a leading financial services organisation, he left the corporate world to pursue his passion for writing. He is currently working on his latest novel, *The Postojna Manuscript*. The

backdrops to his novels are inspired by his travels across the globe. When he is not writing, he can be found pottering around in his garden in Weltevredenpark, South Africa.

to move across the country with him, everyone is happily surprised. But when things suddenly unravel, Rosie sends Jonathan packing and moves back home with Soapie, the irascible, opinionated grandmother who raised her. Now she has to figure out how to fire Soapie’s very unsuitable caregiver, a gardener named Tony who lets her drink martinis, smoke, and cheat at Scrabble. It’s meant to be a temporary break, of course—until Rosie realizes she’s accidentally pregnant at 44, completely unequipped for motherhood, and worse, may be falling in love with Tony, whose life is even more muddled than hers. When Soapie reveals a long-hidden secret, Rosie wonders if she has to let go of her fears, and trust that the big-hearted, messy life that awaits her just may be the one she was meant to live.
