**Women's Networks of Spiritual Promotion in the Peninsular Kingdoms (13th-16th Centuries)** - AA. VV.

2013-09-11T00:00:00+02:00

The starting point for this research is the ascertainment of a major change in the spirituality paradigm of the last centuries of the European Middle Ages, which, since the 13th century, results in a new and final interpretation, focused on pauperistic, evangelical and apostolic ideals, of the religious phenomenon. This symbolic revolution, which completely changed parameters and

involved both men and women, entailed an intense urbanisation and feminisation of spirituality. Within that general framework, the pages of this book attempt at investigating the penetration, evolution and changes of the new forms of female monastic and religious life in a delimited space and time: the kingdoms of the Iberian Peninsula during the period from the 13th to the 16th century, trying to establish the connection between those new spaces of female spirituality and the strategies, wishes and potentialities of the women who promoted their creation, strengthening or reform.

An Italian Dictionary - Alfred Hoare 1915

The Other Side - Alfred Kubin 2000

Alfred Kubin (1877-1959) was one of the major graphic artists of the 20th century who was widely known for his illustrations of writers of the fantastic such as Balzac, E. I. A. Hoffmann, Gustav Meyrink and Edgar Allan Poe. In his

combination of the darkly decadent, the fantastic and the grotesque, in his evocations of dream and nightmare, his creation of an atmosphere of mystery and fear he resembles Mervyn Peake. The Other Side tells of a dream kingdom which becomes a nightmare, of a journey to Pearl, a mysterious city created deep in Asia, which is also a journey to the depths of the subconscious. Or as Kubin himself called it, 'a sort of Baedeker for those lands which are half known to us'.

*The Cambridge Companion to Feminist Literary Theory* - Ellen Rooney 2006-07-06  
Feminism has dramatically influenced the way literary texts are read, taught and evaluated. Feminist literary

theory has deliberately transgressed traditional boundaries between literature, philosophy and the social sciences in order to understand how gender has been constructed and represented through language. This lively and thought-provoking Companion presents a range of approaches to the field. Some of the essays demonstrate feminist critical principles at work in analysing texts, while others take a step back to trace the development of a particular feminist literary method. The essays draw on a range of primary material from the medieval period to postmodernism and from several countries, disciplines and genres. Each essay suggests further reading to explore this field further. This is the most accessible guide available both for students of literature new to this developing field, and for students of gender studies and readers interested in the interactions of feminism, literary criticism and literature.

*Spotlight on First* is a fully comprehensive course that has been revised to be in line with the new Cambridge English exam specifications for January 2015. It prepares adults and younger learners to excel in the revised exam. An exciting

new feature of this revised edition is the Ideas Generator. Test takers need to generate ideas to pass the Speaking and Writing papers of the exam. The Ideas Generator uses National Geographic videos to stimulate students' interest in common exam topics, help them build ideas about these topics and gather the language they need to effectively write or speak about them. After each video lesson students will have a bank of ideas, functional language and vocabulary tied to eight topics that commonly appear in the exam. One of the most difficult parts of the exam for students is the Speaking Test. The Speaking Test videos and worksheets prepare students to deal with this challenge by getting them to engage with simulations of all four parts of the Speaking test.

*Marco Polo's Book* - John Critchley 2017-07-05

Marco Polo and his book may seem to have been well served by scholars, yet the majority have been concerned to write about his travels in Asia, what he did or did not see, and how useful he is as a source on the East. John Critchley's subject, on the other hand, is the text of Polo's book itself and the political and ideological context - the crusades, the Mongol missions, the French presence in Italy - in which it was put together by its author(s), and read by its audience. The homogeneity of the 'original' Franco-Italian text and the accepted relationship between this text and the Latin recensions is tested by computer analysis. An examination of vocabulary

and other textual features draws out the different attitudes and contributions of Polo himself and his various editors and translators. Critchley's book will be of interest not only to those concerned with the history of later medieval Europe but also to specialists in medieval Asia, who will find it useful to know about the background and composition of so famous and frequently cited a work. On pourrait penser que Marco Polo et son livre ont été amplement débattus par les spécialistes en la matière, cependant la majorité a surtout écrit à propos de ses voyages en Asie, ce qu'il avait ou n'avait pas vu et sur son utilité en tant que source de références sur l'Orient. Le sujet traité par John Critchley par contre, est le texte même du livre de Polo, ainsi que le contexte politique et idéologique - les croisades, les missions mongoles, la présence française en Italie - dans lequel il a été composé par son ou ses auteurs et dans lequel ses lecteurs ont pu le lire. L'homogénéité du texte

franco-italien d'origine et le rapport accepté entre celui-ci et les révisions latines ont été analysés par ordinateur. Un examen du vocabulaire et d'autres caractéristiques littéraires fait transparaître les différences d'attitudes et de contributions entre Polo Digital Curation, Second Edition - Gillian Oliver 2017-11-21

As an in-depth explanation of the entire digital curation lifecycle, from creation to appraisal to preservation to organization/access to transformation, the first edition of this text set a benchmark for both thoroughness and clarity. Boasting the expert guidance of international authorities Oliver and Harvey, this revamped and expanded edition widens the scope to address continuing developments in the strategies, technological approaches, and activities that are part of this rapidly changing field. In addition to current practitioners, those pursuing a career as librarian, archivist, or records manager will find this

definitive survey invaluable. Filled with up-to-date best practices, it covers such important topics as the scope and incentives of digital curation, detailing Digital Curation Centre's (DCC) lifecycle model as well as the Data Curation Continuum; key requirements for digital curation, from description and representation to planning and collaboration; the value and utility of metadata; considering the needs of producers and consumers when creating an appraisal and selection policy for digital objects; the paradigm shift by institutions towards cloud computing and its impact on costs, storage, and other key aspects of digital curation; the quality and security of data; new and emerging data curation resources, including innovative digital repository software and digital forensics tools; mechanisms for sharing and reusing data, with expanded sections on open access, open data, and open standards initiatives; and processes to ensure that data

are preserved and remain usable over time. Useful as both a teaching text and day-to-day working guide, this book outlines the essential concepts and techniques that are crucial to preserving the longevity of digital resources.

The Lady in the Looking Glass - Virginia Woolf 2011-02-15 'People should not leave looking-glasses hanging in their rooms any more than they should leave open cheque books or letters confessing some hideous crime.' 'If she concealed so much and knew so much one must prize her open with the first tool that came to hand - the imagination.' Virginia Woolf's writing tested the boundaries of modern fiction, exploring the depths of human consciousness and creating a new language of sensation and thought.
