Conducting School-Based Assessments of Child and Adolescent Behavior - Edward Steven Shapiro 2002-07-25

This hands-on guide is designed to help school practitioners conduct effective multidimensional assessments of a wide range of emotional and behavioral difficulties. Each chapter focuses on a particular method, describes its applications in the school setting, and offers clear guidelines for implementation, illustrated with realistic case examples. Approaches discussed include direct observation, analogue assessment, child self-reports, teacher and parent interviewing, informant reports, and self-monitoring procedures. Recommendations for working with culturally and linguistically diverse children and adolescents are also provided. The theoretical and empirical underpinnings of the assessment strategies demonstrated here are thoroughly reviewed in the companion volume, *Behavioral Assessment in Schools, Second Edition: Theory, Research, and Clinical Foundations* (see other side for more information).

Mystery of Ohutvesi - T. Hilko 2018-07-23

"The old mansion, the lake, the sunshine...students playing in the water. I have a feeling this project is going to be a walk in the park," the Belgian teacher says to her colleagues. An international group of students has arrived at a fairy-like hidden mansion in the Finnish woods for a summer camp. "Too idyllic sounds very boring," her Norwegian colleague responds. With the old mansion in the background, these seem scenes from a happy school trip, and not so much of a summer camp for actual school projects. The lazy atmosphere makes things happen in kind of slow motion. Everybody with their own cultural and personal background adds to the project and to the mystery developing at Ohutvesi, which, itself, has a dark past as well. Long before the end of the summer camp this initially magical place changes into a creepy black hole into which dreams are swallowed, changing the lives of all the participants drastically forever after.

The Adventures of Gabby and Bella - Linda Gustoso 2013-05-15

There is no reason for anyone to be bullied by anyone because of their race, beliefs or choices. Every person deserves respect in what and how they choose to live. It is a personal matter and Bullying is no longer acceptable. When children/adults are intimidated, persecuted, and tormented for their beliefs, and choices it is time we say, Enough! This book hopes to convey to children that they do not have to be a victim and to feel free talk to their Mom and Dad, or Teacher, or any adult they may trust to tell them if they see someone getting bullied including themselves. Bullies do not have the right to hit, and beat anyone because they may be different or have different beliefs and choices. It is not their right to bring down and hurt these victims. This book is to educate and convey to children that there is strength in numbers. They can suggest a Bully Club for their schools with the safety of their teachers and adults, where the child will be anonymous. Enough is Enough ~ Bye Bye Bullies, Bye Bye! We are going to bring you down!

Should I Go to Grad School? - Jessica Loudis 2014-05-06

The decision to go to graduate school is easy for future doctors and lawyers: they need a professional degree to start their careers. But for many young creative workers, aspiring artists, and intellectuals, grad school poses an existential fork in the road. An MFA or a humanities PHD can give you time to study something you love among people with similar interests, but it can also uproot you geographically and saddle you with debt. Given the current job market, is grad school really worth it—financially, professionally, and emotionally? In this book, a wide range of intellectuals and creative types share their stories about going to grad school or avoiding it, and what that decision has meant in their lives. They provide an inside look at what graduate programs are really like and share the wisdom they wish they had going in. -- Publisher description

Strengthening Forensic Science in the United States - National Research Council 2009-07-29

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training,

widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.
