A Restless Search - Kenneth J. Thomas
2015-12-01

A literary detective story, a historical survey,
and an important contribution to translation

studies This book from Kenneth J. Thomas is
both a philological and linguistic analysis of
Persian translations and a call for interfaith
cooperation. Thomas appraises biblical
translation efforts from the fifth to the twenty-
first centuries of Persian history when
successive translators and groups of translators,
sometimes of different faiths, worked to reshape
and refine versions of the Bible in the supple
Persian language of their times. Restless,
impelled, and wide-ranging, this is a story of
translations commissioned by shahs, undertaken
by Christian and Jewish communities, and
produced by teams working outside the country.
Features Demonstration of the effects of the lack
of a standard Persian vocabulary for key biblical
terms on literary style and word choice
Technical analyses and overviews of Persian
biblical translations A careful examination of
sixteen centuries' worth of Bible translations
My Key Verse Bible - Vanessa Carroll
2018-09-25

Learning Scripture by heart is simpler when you lead with a story! In this collection, twenty-two essential Bible verses are accompanied by child-friendly illustrations and a story from the Bible that makes the words come alive--creating a mental picture and making it easier to memorize. The key verse for every story is listed at the beginning of its chapter. Each ends with a devotional paragraph that explains the key verse and the main point. Knowing the truth of God's promises at an early stage lays a foundation for understanding them on a deeper level later. My Key Verse Bible teaches children the relevance of God's promises to us through His Word--and helps children recall them when they need them most.

Cain's Jawbone - Edward Powys Powys Mathers

Six murders. One hundred pages. Millions of possible combinations... but only one is correct. Can you solve Torquemada's murder mystery? In 1934, the Observer's cryptic crossword

compiler, Edward Powys Mathers (aka Torquemada), released a novel that was simultaneously a murder mystery and the most fiendishly difficult literary puzzle ever written. The pages have been printed in an entirely haphazard order, but it is possible - through logic and intelligent reading - to sort the pages into the only correct order, revealing six murder victims and their respective murderers. Only three puzzlers have ever solved the mystery of Cain's Jawbone: do you have what it takes to join their ranks? Please note: this puzzle is extremely difficult and not for the faint-hearted.
