A Love For Life - Jane McGrath 2012-01-01

A love story that will break your heart. Jane Steele had been in a relationship with Australian Test cricketer Glenn McGrath for less than two years when, at age 31, to her horror and disbelief she was diagnosed with breast cancer. She didn't want to burden him, and offered to end the relationship and return to England to face the problem alone. He wouldn't have a bar of it--he was sticking by her no matter what. Together they battled the fear, the despair and the cancer. Jane had a mastectomy and then underwent gruelling chemotherapy. Through it all, Glenn was by her side. Together, they beat the cancer, this time at least. This, and their marriage, would have been happy ending enough but then, despite being told the chemotherapy could make her infertile, Jane discovered she was pregnant. Jane and Glenn welcomed baby James into their life. The alternating his 'n hers chapters take the reader right into the heart of this story. Jane and Glenn wrote frankly of their fears and worries (including such things as the fact that Jane might not survive, and how each felt about her body after surgery) and inspiringly of their devotion and their dedication to beating this disease. There are surprising laughs throughout the book (for instance they each have different memories of their courting days!) as well as deeply moving passages. This is a wonderful celebration of life and love.

As the neuropsychological basis of love is examined, this study showcases what attracts people to one another, why love has developed the way it has over time, and what evolutionary purpose it serves.
