The Airbus A380 - Graham M. Simons 2014-08-13

Every 7 minutes, an A380 takes off or lands somewhere in the world...The Airbus was initially designed and developed in order to provide a contender to the Boeing's growing monopoly of the skies in the biggest large-aircraft market in the world. Ambitious in design, the undertaking seemed mammoth. Yet scores of aviation engineers and pilots worked to get the design off the ground and the Airbus in our skies. This double-decker, wide-body, 4 engine jet airliner promised to redefine expectations when it came to commercial flight. Five years on from its launch, Graham Simons provides us with this, an impressively illustrated narrative history of the craft, its achievements, and the legacy it looks set to provide to a new generation of aviation engineers, enthusiasts and passengers. Operated by airlines such as Emirates, Singapore Airlines, Qantas and Lufthansa, the story of the A380 could be said to represent the story of modern-day travel itself, characterised by major technological advances across the world that constantly push the boundaries of expectation. Sure to appeal broadly across the market, this is very much a commemorative volume, preserving the history of this iconic craft in words and images.

The Rivals - Vi Keeland 2020-07-13

A sexy, enemies-to-lovers standalone novel from #1 New York Times Bestseller, Vi Keeland. The feud between Weston Lockwood and me started at the altar. Only neither of us attended the wedding, and the nuptials happened decades before either of us was born. Our grandfathers had been best friends and business partners, at least up until my grandfather's wedding day—when his bride-to-be blurted out she couldn't marry him because she was also in love with Weston's grandfather. The two men spent years fighting over Grace Copeland, who also happened to be their third business partner. But in the end, neither man could steal half of her heart away from the other. Eventually, they all went their separate ways. Our grandfathers married other women, and the two men became one of the biggest business rivals in history. Our fathers continued the family tradition of feuding. And then Weston and I did, too. For the most part, we kept as much distance as possible. Until the day the woman who started the feud died—and unexpectedly left one of the most valuable hotels in the world to our grandfathers to share. Now I'm stuck in a hotel with the man I was born to hate, trying to unravel the mess our families inherited. As usual, it didn't take long for us to be at each other's throats. Weston Lockwood was everything I hated: tall, smart, cocky, and too gorgeous for his own good. We were fire and ice. But that shouldn't be an issue. Our families were used to being at war. There was just one minor problem, though. Every time Weston and I fought, we somehow wound up in bed.

Allacciate le cinture. I segreti del volo raccontati da un pilota - Pietro Pallini 2019

Italo Balbo - Claudio G. Segre 1990-08-09

Pioneering aviator, blackshirt leader, colonial governor, confidante and heir-apparent to Benito Mussolini, the dashing and charismatic Italo Balbo exemplified the ideals of Fascist Italy during the 1920s and 30s. He earned national notoriety after World War I as a ruthless squadrista whose blackshirt forces crushed socialist and trade union organizations. As Minister of Aviation from 1926 to 1933, he led two internationally heralded mass trans-Atlantic flights. When his aerial armada reached the U. S., Chicago honored him with a Balbo Avenue, New York staged a ticker-tape parade, and President Roosevelt invited him to lunch. As colonial governor from 1933 to 1940, Balbo transformed Libya from backward colony to model Italian province. To many, Italo Balbo seemed to embody a noble vision of Fascism and the New Italy.

Flight of the Intruder - Stephen Coonts 2006-06-27

A smash bestseller that spent over six months on the New York Times bestseller list, *Flight of the Intruder* became an instant classic. No one before or since ever captured the world of Navy carrier pilots with the gripping realism of Vietnam veteran Stephen Coonts, who lived the life he wrote about. More than a flying story, *Flight of the Intruder* is also one of the best novels ever written about the Vietnam experience. It's all here—the flying, the dying, the blood and bombs and bullets, and the sheer joy—and terror—of life at full throttle. "Gripping...Smashing. —The Wall Street Journal Grazing the Vietnam treetops at night at just under the speed of sound, A-6 Intruder pilot Jake "Cool Hand" Grafton knows exactly how precarious life is. Landing on a heaving aircraft carrier, dodging missiles locked on his fighter, flying through clouds of flak—he knows each flight could be his last. Yet he straps himself into a cockpit every day.

"Extraordinary!"—Tom Clancy Then a bullet kills his bombardier while they're hitting another 'suspected' truck depot. Jake wonders what his friend died for—and why? Hitting pointless targets selected by men piloting desks just doesn't make sense. Maybe it's time to do something worthwhile. Something that will make a difference... "Superbly written." — Washington Times Jake and his new bombardier, ice-cold Tiger Cole, are going to pick their own target and hit the enemy where it hurts. But to get there and back in one piece is going to take a lot of nerve, even more skill, and an incredible amount of raw courage. Before it's over, they're going to fly into hell. "When Grafton is at the controls of his Intruder, the novel comes alive with a jolt." — Washington Post Book World

I segreti del volo - Rizzardo Trebbi 2013-07-03T00:00:00+02:00

In cinque capitoli e oltre 230 illustrazioni, questo libro offre tutte le risposte alle domande che ognuno di noi si pone quando è a bordo di un aereo o lo osserva in volo da terra: un racconto ricco di aneddoti e di fatti storici che lo rendono comprensibile anche a chi non possiede conoscenze tecniche specifiche. L'autore, pilota di grande esperienza e con oltre 41.000 ore di volo, descrive, in una forma adatta a tutti, come funziona davvero un aereo: da come lavorano i suoi motori, a che cosa servano i numerosi "orologi" che vediamo nella cabina, a quanto sia sicuro il suo impiego e con quali mezzi i piloti si orientano per trovare sempre - anche di notte e tra le nubi - "la strada nel cielo". Un libro per scoprire come gli aerei sono mantenuti in efficienza, come sono guidati dagli uomini radar e come si svolgono le comunicazioni con lo stuolo di persone che lavorano dietro le quinte, per far volare simultaneamente in sicurezza migliaia di aerei in tutto il mondo.

ANSIA? No, Grazie! - Giada Prezioso 2020-10-03

Viviamo in un mondo che va sempre più veloce, ultra bombardati da stimoli provenienti da ogni dove, dipendenti dal telefonino, dai social e da WhatsApp. Centinaia di messaggi ci assillano ogni giorno e siamo colpiti e afflitti da ogni forma di ansia e stress. Tutto ciò fa male alla nostra salute, arrecandoci danni e disturbi più o meno gravi, nel breve e nel lungo termine. Disintossicarsi da tutto ciò non è affatto facile e uno dei primi sintomi è la famigerata ANSIA, alla cui auto-guarigione è dedicato questo libro. Come tutti gli HOW2, questa guida è caratterizzata da una lettura facile, pratica e rapida, ricca di esempi e soluzioni immediate. Non si tratta del classico, noioso, trattato di psicologia per consuelor e vari addetti ai lavori,

bensi di un semplicissimo self-help, realizzato non per darti inutili nozioni teoriche ma piuttosto pratiche basi per aiutarti subito. Come è strutturato questo libro e quali obiettivi si pone? In primis, bisogna capire cosa è l'ansia e da quale tipo di ansia siamo afflitti. Quindi, la prima parte del libro spiega, in modo chiaro e pratico, cosa è l'ansia sociale, l'ansia da prestazione, l'ansia generalizzata, l'ansia affettiva ed emotiva, ecc. Successivamente, cercheremo di farti capire quale tipo di ansia ti disturba e parleremo dei rapporti tra ansia, stress, depressione e attacchi di panico. La seconda parte del libro, invece, è dedicata ai modi per controllare e superare l'ansia. Resterai sorpreso dai tanti modi svelati, per controllare l'ansia e metterla da parte; perché devi sapere che non esiste solo un modo per combattere l'ansia, ma esistono tanti e spesso sorprendenti modi per sconfiggere questo nemico invisibile. Scopri i trucchi e i segreti per gestire l'ansia in ogni occasione, dal lavoro alle svariate occasioni sociali o di solitudine. Scopri, infine, come vari personaggi famosi hanno fatto a sconfiggere l'ansia. Questi esempi pratici ti aiuteranno ulteriormente, infondendoti coraggio attraverso casi reali di persone apparentemente invulnerabili eppure evidentemente fragili, come tutti noi.

The Glitter Dome - Joseph Wambaugh 2011-11-29

It's the wildest bar in Chinatown, run by a proprietor named Wing who will steal your bar change every chance he gets. On payday the groupies mingle there with off-duty LAPD cops, including homicide detectives Martin Welborn and Al Mackey, who get assigned the case of a murdered Hollywood studio boss who may have been involved in some very strange and dangerous filmmaking. Hilarious at times, heartbreaking at others, this book was likened by the New York Daily News to a "one-two combination that leaves the reader reeling."

The Ballad of Mila - Matteo Strukul 2014-02-25

Pray the cops find you first... Imagine Elmore Leonard behind the wheel of a car in Grand Theft Auto as one Italian woman sets out to cut the mafia down to size - one limb at a time... Two perfectly matched gangs are fighting for control of the north-east Italian region of Venetia. But a formidable young woman with vengeance on her mind has plans to upset the balance. Abandoned by her mother and violated by a gang of criminals just after they slaughtered her father, Mila Zago is a cold-blooded killer, a deadly assassin. Brought up by her grandfather on the Sette Comuni plateau under a rigid martial code, she returns home to seek her revenge, conspiring to create a spectacular showdown reminiscent of A Fistful of Dollars. The Ballad of Mila is the first novel in an ongoing series focused on the formidable female Italian bounty hunter Mila Zago, a.k.a. Red Dread. As well as being shortlisted for the Premio Scerbanenco / La Stampa prize, it won the Premio Speciale Valpolicella 2011, and in its graphic novel format was awarded the Premio Leone di Narnia as "Best Italian comic book series of the year".

RED - the Leviathan - L F Koraline 2019-07-22

Would you fear death if you were Juliet and you met your Romeo? In exactly seven months, five days, and a few hours Snow White will be walking down the aisle on the arm of her father, Walter White - the front-runner for next president of the United States of America. Her fate - to be married to the rich and famous Dr. Barry Lawrence - has been sealed since the day she was born. Her future's all mapped out, but suddenly, during a trip to sunny Tennessee with her best friend Brenda, a man with golden hair turns her life upside down. He's the Leviathan, on every woman's lips, the nameless, rough, and lonesome cowboy whom they all desire. But he's the king of contradictions. He sleeps with a wild wolf on one side of the bed, and Shakespeare's Macbeth on the other. He's as wild and untamed as his black stallion, yet plays the violin like a professional and recites Shakespeare like the poet himself. Nothing will ever be the same for Snow after the Leviathan demands to see her every night... at midnight. Between unbridled instincts, wild passion, and difficult choices, she'll have to decide whether to surrender to her fate or write her own fairytale ending. This is the story of Snow White and her Leviathan.

Emmanuelle - Emmanuelle Arsan 2014-03-11

A young woman discovers the boundless potential of her sexuality in this "lyrical and graphic" international bestselling classic novel of joyful eroticism (NPR). It begins with nineteen-year-old Emmanuelle's flight from London to join her husband in Bangkok. On the airplane, she is seduced by the passenger seated next to her. By the time they land, she has indulged her irrepressible and insatiable sexual appetite, embarking on an odyssey of hedonistic sensual discovery that takes her from the arms of her husband to intimate

encounters with the wives of his business associates, to further explorations wherein the philosophical and aesthetic facets of eroticism are expounded—and enacted—to the fullest degree. Much like Anne Desclos' *The Story of O* and Anaïs Nin's *Delta of Venus*, *Emmanuelle* is as pertinent today as it was when it was first published in 1967, a thrilling reminder of "how this revolutionary epic had an impact on the sexual liberation of women" (*Le Parisien Magazine*). "Emmanuelle is not just sex; it is an eroticism that is vintage, oneiric, utopian, and tender, an optimistic and radiant eroticism." —*Le Point* "Emmanuelle's eroticism is not pathological, unlike the eroticism of revolt. It is a crucial part of the satisfaction of the individual, which feels threatened by nothing, which unfolds in harmony with the world: an eroticism of perfect accord." —*Le Magazine Littéraire* "Lyrical and graphic . . . But it's not all salacious play-by-play. The sex scenes are interspersed with abstract musings about the nature of sex. . . . In short, it arouses." —Teddy Wayne, NPR
The Wright Brothers - David McCullough 2015-05-05

The #1 New York Times bestseller from David McCullough, two-time winner of the Pulitzer Prize—the dramatic story-behind-the-story about the courageous brothers who taught the world how to fly—Wilbur and Orville Wright. On a winter day in 1903, in the Outer Banks of North Carolina, two brothers—bicycle mechanics from Dayton, Ohio—changed history. But it would take the world some time to believe that the age of flight had begun, with the first powered machine carrying a pilot. Orville and Wilbur Wright were men of exceptional courage and determination, and of far-ranging intellectual interests and ceaseless curiosity. When they worked together, no problem seemed to be insurmountable. Wilbur was unquestionably a genius. Orville had such mechanical ingenuity as few had ever seen. That they had no more than a public high school education and little money never stopped them in their mission to take to the air. Nothing did, not even the self-evident reality that every time they took off, they risked being killed. In this "enjoyable, fast-paced tale" (*The Economist*), master historian David McCullough "shows as never before how two Ohio boys from a remarkable family taught the world to fly" (*The Washington Post*) and "captures the marvel of what the Wrights accomplished" (*The Wall Street Journal*). He draws on the extensive Wright family papers to profile not only the brothers but their sister, Katharine, without whom things might well have gone differently for them. Essential reading, this is "a story of timeless importance, told with uncommon empathy and fluency...about what might be the most astonishing feat mankind has ever accomplished...The Wright Brothers soars" (*The New York Times Book Review*).

Facciamo in modo che diventiamo quello che noi avremmo (rafforzativo di saremmo) voluto diventare. Perché la massa dimentica o non conosce. Denuncio i difetti e caldeggio i pregi italici. Perché non abbiamo orgoglio e dignità per migliorarci e perché non sappiamo apprezzare, tutelare e promuovere quello che abbiamo ereditato dai nostri avi. Insomma, siamo bravi a farci del male e qualcuno deve pur essere diverso!
