you're like most nonfiction authors, fears are holding you back. Sound familiar? Is my idea good enough? How do I structure a book? What exactly are the steps to write it? How do I stay motivated? What if I actually finish it, and it's bad? Worst of all: what if I publish it, and no one cares? How do I know if I'm even doing the right things? The truth is, writing a book can be scary and overwhelming—but it doesn't have to be. There's a way to know you're on the right path and taking the right steps. How? By using a method that's been validated with thousands of other Authors just like you. In fact, it's the same exact process used to produce dozens of big bestsellers—including David Goggins's *Can't Hurt Me*, Tiffany Haddish's *The Last Black Unicorn*, and Joey Coleman's *Never Lose a Customer Again*. The Scribe Method is the tested and proven process that will help you navigate the entire book-writing process from start to finish—the right way. Written by

4x New York Times Bestselling Author Tucker Max and publishing expert Zach Obront, you'll learn the step-by-step method that has helped over 1,500 authors write and publish their books. Now a Wall Street Journal Bestseller itself, *The Scribe Method* is specifically designed for business leaders, personal development gurus, entrepreneurs, and any expert in their field who has accumulated years of hard-won knowledge and wants to put it out into the world. Forget the rest of the books written by pretenders. This is the ultimate resource for anyone who wants to professionally write a great nonfiction book.

### **Around the World in 80 days**

- Jules Verne 1881

*Around the World in Eighty Days*, an adventure novel first published in 1873, was written by the French writer Jules Verne. Phileas Fogg is a rich Englishman living in London, whose life moves strictly by the clock. He employs a new servant, Passepartout, after his previous servant makes the

silly mistake of serving shaving water two degrees cold. Later that day, Phileas goes to the Reform Club as usual, where he gets into an argument with his whist partners who debate whether one can travel all around the world in eighty days. He bets a fortune to prove that he can accomplish the feat, being unaware that a look-alike has recently robbed a bank.

**Gifted Hands** - Ben Carson, M.D. 2008-09-09

In 1987, Dr. Benjamin Carson gained worldwide recognition for his part in the first successful separation of Siamese twins joined at the back of the head. The extremely complex and delicate operation, five months in the planning and twenty-two hours in the execution, involved a surgical plan that Carson helped initiate. Carson pioneered again in a rare procedure known as hemispherectomy, giving children without hope a second chance at life through a daring operation in which he literally removed one half of their brain.

But such breakthroughs aren't unusual for Ben Carson. He's been beating the odds since he was a child. Raised in inner-city Detroit by a mother with a third grade education, Ben lacked motivation. He had terrible grades. And a pathological temper threatened to put him in jail. But Sonya Carson convinced her son that he could make something of his life, even though everything around him said otherwise. Trust in God, a relentless belief in his own capabilities, and sheer determination catapulted Ben from failing grades to the top of his class --- and beyond to a Yale scholarship . . . the University of Michigan Medical School . . . and finally, at age 33, the directorship of pediatric neurosurgery at Johns Hopkins Hospital in Baltimore, Maryland. Today, Dr. Ben Carson holds twenty honorary doctorates and is the possessor of a long string of honors and awards, including the Horatio Alger Award, induction into the 'Great Blacks in Wax' Museum in Baltimore, Maryland, and an invitation as Keynote Speaker

at the 1997 President's National Prayer Breakfast. Gifted Hands is the riveting story of one man's secret for success, tested against daunting odds and driven by an incredible mindset that dares to take risks. This inspiring autobiography takes you into the operating room to witness surgeries that made headlines around the world --- and into the private mind of a compassionate, God-fearing physician who lives to help others. Through it all shines a humility, quick wit, and down-to-earth style that make this book one you won't easily forget.

**Family First** - Deloris Jordan  
1996

An inspirational guide to parenting by the mother of basketball superstar Michael Jordan shares insights and advice on how to raise exceptional and accomplished children, even in a challenging environment. \$75,000 ad/promo. Tour.

*Big Book of Magic Tricks* - Karl Fulves  
2012-07-13

Learn to do astounding tricks

with cards, coins, rope; also, comedy magic, mental dexterity, more. Few props and little sleight of hand needed. "The best book yet on easy-to-do magic." — Martin Gardner. 247 illustrations.

*Created Equal* - Ben Carson  
2022-05-17

Now a New York Times Bestseller! Bestselling author and conservative icon Dr. Ben Carson lays out a hopeful and inspiring road map for how America can come together. External physical characteristics that are genetically encoded are things over which no individual has control. But rather than appreciating the gift of diversity, some have chosen to use it to drive wedges between groups of people. Some of these external characteristics are associated with the past moral failing of slavery. Though slavery in America formally ended in the 1860s, the vestiges of that evil institution are still with us today, and those vestiges often inflict guilt on some and facilitate feelings of victimhood

Downloaded from

in others. In *Created Equal*, Dr. Carson uses his own personal experiences as a member of a racial minority, along with the writings and experiences of others from multiple backgrounds and demographics, to analyze the current state of race relations in America. Instead of using race as an excuse to remake America into something completely antithetical to the Constitution, Dr. Carson suggests ways to enhance and bring great success to our nation and all multiethnic societies by magnifying America's incredible strengths instead of her historical weaknesses.

**I Am a Cat** - Galia Bernstein  
2018-02-06

A simple housecat named Simon encounters some bigger cats: Lion, Puma, Panther, Tiger, and Cheetah. Each of the big cats has something to say about Simon not being "cat" enough. According to them, he just doesn't measure up. He doesn't have Lion's mane or Cheetah's spots. He doesn't sleep in trees like Panther or

climb mountains like Puma. He's small and fuzzy, not big and strong. But ultimately, Simon shows the big cats that he's just like them . . . only smaller. A celebration of both individuality and community, *I Am a Cat* is a strong debut that shows we're all more alike than we think . . . if we look closely enough.

*God's Big Picture* - Vaughan Roberts  
2012-06-11

Sixty-six books written by forty people over nearly 2,000 years, in two languages and several different genres. The Bible is clearly no ordinary book. How can you begin to read and understand it as a whole? This excellent overview gives you the big picture, providing both the encouragement and the tools you need to read the Bible with confidence and understanding.

*Gifted Hands* - Gregg Lewis  
2009

A biography of the surgeon who overcame poverty and racism to become chief of pediatric neurosurgery at Johns Hopkins University Hospital.

[Democratizing Innovation](#) -

Downloaded from  
[ravishingbeasts.com](http://ravishingbeasts.com) on

Eric Von Hippel 2006-02-17

The process of user-centered innovation: how it can benefit both users and manufacturers and how its emergence will bring changes in business models and in public policy. Innovation is rapidly becoming democratized. Users, aided by improvements in computer and communications technology, increasingly can develop their own new products and services. These innovating users—both individuals and firms—often freely share their innovations with others, creating user-innovation communities and a rich intellectual commons. In *Democratizing Innovation*, Eric von Hippel looks closely at this emerging system of user-centered innovation. He explains why and when users find it profitable to develop new products and services for themselves, and why it often pays users to reveal their innovations freely for the use of all. The trend toward democratized innovation can be seen in software and information products—most

notably in the free and open-source software movement—but also in physical products. Von Hippel's many examples of user innovation in action range from surgical equipment to surfboards to software security features. He shows that product and service development is concentrated among "lead users," who are ahead on marketplace trends and whose innovations are often commercially attractive. Von Hippel argues that manufacturers should redesign their innovation processes and that they should systematically seek out innovations developed by users. He points to businesses—the custom semiconductor industry is one example—that have learned to assist user-innovators by providing them with toolkits for developing new products. User innovation has a positive impact on social welfare, and von Hippel proposes that government policies, including R&D subsidies and tax credits, should be realigned to eliminate biases against it. The goal of a democratized user-

centered innovation system, says von Hippel, is well worth striving for. An electronic version of this book is available under a Creative Commons license.

*The Big Picture* - Ben Carson  
1999

The noted surgeon shares his story of how he overcame obstacles in his life by seeing the "big picture"--his own potential, making the most of learning opportunities, attempting to make the world a

better place, a commitment to education, and having faith

[A Wealth of Common Sense](#) -  
Ben Carlson 2015-06-22

A simple guide to a smarter strategy for the individual investor A Wealth of Common Sense sheds a refreshing light on investing, and shows you how a simplicity-based framework can lead to better investment decisions. The financial market is a complex system, but that doesn't mean it requires a complex strategy; in fact, this false premise is the driving force behind many investors' market "mistakes." Information is important, but

understanding and perspective are the keys to better decision-making. This book describes the proper way to view the markets and your portfolio, and show you the simple strategies that make investing more profitable, less confusing, and less time-consuming. Without the burden of short-term performance benchmarks, individual investors have the advantage of focusing on the long view, and the freedom to construct the kind of portfolio that will serve their investment goals best. This book proves how complex strategies essentially waste these advantages, and provides an alternative game plan for those ready to simplify. Complexity is often used as a mechanism for talking investors into unnecessary purchases, when all most need is a deeper understanding of conventional options. This book explains which issues you actually should pay attention to, and which ones are simply used for an illusion of intelligence and control. Keep up with—or beat—professional money

managers Exploit stock market volatility to your utmost advantage Learn where advisors and consultants fit into smart strategy Build a portfolio that makes sense for your particular situation You don't have to outsmart the market if you can simply outperform it. Cut through the confusion and noise and focus on what actually matters. A Wealth of Common Sense clears the air, and gives you the insight you need to become a smarter, more successful investor.

**Take the Risk** - Ben Carson  
2008

A world-renowned neurosurgeon explores the relationship between risk and faith, sharing the daily risks he takes in hundreds of complex surgeries on the brain and spinal cord and how those risks are an essential part of living as God designed. 75,000 first printing. \$30,000 ad/promo.

[A More Perfect Union](#) - Ben Carson, MD 2015-10-06

Dear Reader, Many people have wondered why I've been speaking out on controversial

issues for the last few years. They say I've never held political office. I'm not a constitutional scholar. I'm not even a lawyer. All I can say to that is "Guilty as charged." It's true that I've never voted for a budget America could not afford. I've never raised anyone's taxes. And I've never promised a lobbyist anything in exchange for a donation. Luckily, none of that really matters. Our founding fathers didn't want a permanent governing class of professional politicians. They wanted a republic, in Lincoln's words, "of the people, by the people, and for the people." A country where any farmer, small-business owner, manual laborer, or doctor could speak up and make a difference. I believe that making a difference starts with understanding our amazing founding document, the U.S. Constitution. And as someone who has performed brain surgery thousands of times, I can assure you that the Constitution isn't brain surgery. The founders wrote it

for ordinary men and women, in clear, precise, simple language. They intentionally made it short enough to read in a single sitting and to carry in your pocket. I wrote this book to encourage every citizen to read and think about the Constitution, and to help defend it from those who misinterpret and undermine it. In our age of political correctness it's especially important to defend the Bill of Rights, which guarantees our freedom to speak, bear arms, practice our religion, and much more. The Constitution isn't history—it's about your life in America today. And defending it is about what kind of country our children and grandchildren will inherit. I hope you'll enjoy learning about the fascinating ways that the founders established the greatest democracy in history—and the ways that recent presidents, congresses, and courts have threatened that democracy. As the Preamble says, the purpose of the Constitution is to create a more perfect union. My goal is to empower you to help

protect that union and secure the blessings of liberty.  
Sincerely, Ben Carson  
*The Other Wes Moore* - Wes Moore 2011-01-11  
NEW YORK TIMES  
BESTSELLER • The  
“compassionate” (People),  
“startling” (Baltimore Sun),  
“moving” (Chicago Tribune)  
true story of two kids with the same name from the city: One went on to be a Rhodes Scholar, decorated combat veteran, White House Fellow, and business leader. The other is serving a life sentence in prison. In development as a feature film executive produced by Stephen Curry, who selected the book as his “Underrated” Book Club Pick with Literati The chilling truth is that his story could have been mine. The tragedy is that my story could have been his. In December 2000, the Baltimore Sun ran a small piece about Wes Moore, a local student who had just received a Rhodes Scholarship. The same paper also ran a series of articles about four young men who had allegedly killed a

police officer in a spectacularly botched armed robbery. The police were still hunting for two of the suspects who had gone on the lam, a pair of brothers. One was named Wes Moore. Wes just couldn't shake off the unsettling coincidence, or the inkling that the two shared much more than space in the same newspaper. After following the story of the robbery, the manhunt, and the trial to its conclusion, he wrote a letter to the other Wes, now a convicted murderer serving a life sentence without the possibility of parole. His letter tentatively asked the questions that had been haunting him: Who are you? How did this happen? That letter led to a correspondence and relationship that have lasted for several years. Over dozens of letters and prison visits, Wes discovered that the other Wes had had a life not unlike his own: Both had had difficult childhoods, both were fatherless; they'd hung out on similar corners with similar crews, and both had run into trouble with the police. At each

stage of their young lives they had come across similar moments of decision, yet their choices would lead them to astonishingly different destinies. Told in alternating dramatic narratives that take readers from heart-wrenching losses to moments of surprising redemption, *The Other Wes Moore* tells the story of a generation of boys trying to find their way in a hostile world.

[Strengthening Forensic Science in the United States](#) - National Research Council  
2009-07-29

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with

consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as

a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

**For the Love of God (Vol. 1, Trade Paperback)** - D. A. Carson 2006-07-10

In a world that views absolute truth, right and wrong, and salvation as being subject to individual interpretation, the Bible's unwavering proclamations and miraculous stories seem obsolete in modern times. But it is not God's Word that has changed. Indeed, its relevancy and its power to transform lives are intact. What has changed is the number of people who consult it. Now more than ever the need to read the Bible, to understand the big picture of its storyline, and to grasp the relevance this has for your life is critical. As with its companion volume, For the Love of God-Volume 2, this devotional contains a systematic 365-day plan, based on the M'Cheyne Bible-reading schedule, that will in the course of a year guide you through the New Testament

and Psalms twice and the rest of the Old Testament once. In an effort to help preserve biblical thinking and living, D. A. Carson has also written thought-provoking comments and reflections regarding each day's scriptural passages. And, most uniquely, he offers you perspective that places each reading into the larger framework of history and God's eternal plan to deepen your understanding of his sovereignty-and the unity and power of his Word.

Based on Carson's *Gifted Hands*, an encouraging story for kids with low self-esteem.

[Gifted Hands 20th Anniversary Edition](#) - Ben Carson, M.D.  
2011-04-19

This bestselling book reveals the extraordinary life of Dr. Ben Carson--from inner-city kid to renowned neurosurgeon. Dr. Ben Carson is known around the world for breakthroughs in neurosurgery that have brought hope where no hope existed. In *Gifted Hands*, he tells of his inspiring odyssey from his childhood in inner-city

Detroit to his position as director of pediatric neurosurgery at Johns Hopkins Medical Institutions at age thirty-three. Filled with fascinating case histories, *Gifted Hands* will transplant you into the operating room to witness surgeries that made headlines around the world, and into the private mind of a compassionate, God-fearing physician who lives to help others. In 1987, Dr. Carson gained worldwide recognition for his part in the first successful separation of Siamese twins joined at the back of the head--an extremely complex and delicate operation that was five months of planning and twenty-two hours of actual surgery, involving a surgical plan that Carson helped initiate. *Gifted Hands* reveals a man with humility, decency, compassion, courage, and sensitivity who serves as a role model for anyone who attempts the seemingly impossible.

including new content and additional photographs, kids ages 8-12 will read the extraordinary true story of Ben Carson, who grew up to becoming one of the world's leading pediatric neurosurgeons. When Ben Carson was in school, his classmates called him the class dummy. Many—including Ben himself—doubted that he would ever amount to anything. But his mother never let him quit. She encouraged Ben to do better and reach higher for his dreams, and eventually he discovered a deep love of learning. Today this young boy from the inner-city is one of the world's greatest pediatric neurosurgeons, dedicated to saving the lives of critically ill children around the world. Kids will learn how anything is possible with faith and determination through this revised biography, including Ben's latest awards and achievements. Updated photographs of Ben and his family are placed throughout the text. Common Core Standards: CCSS.ELA-

Literacy.RI.5.1; 6.1; 7.1 Quote accurately from a text when explaining what the text says explicitly and when drawing inferences from the text. CCSS.ELA-Literacy.RI.5.8; 6.8; 7.8 Explain how an author uses reasons and evidence to support particular points in a text, identifying which reasons and evidence support which point(s). CCSS.ELA-Literacy.RH.6-8.4 Determine the meaning of words and phrases as they are used in a text, including vocabulary specific to domains related to history/social studies. *America the Beautiful* - Ben Carson, M.D. 2012-01-24 What is America becoming? Or, more importantly, what can she be if we reclaim a vision for the things that made her great in the first place? In *America the Beautiful*, Dr. Ben Carson helps us learn from our past in order to chart a better course for our future. From his personal ascent from inner-city poverty to international medical and humanitarian acclaim, Carson shares experiential insights that help us understand: what

is good about America where we have gone astray which fundamental beliefs have guided America from her founding into preeminence among nations Written by a man who has experienced America's best and worst firsthand, *America the Beautiful* is at once alarming, convicting, and inspiring. You'll gain new perspectives on our nation's origins, our Judeo-Christian heritage, our educational system, capitalism versus socialism, our moral fabric, healthcare, and much more. An incisive manifesto of the values that shaped America's past and must shape her future, *America the Beautiful* calls us all to use our God-given talents to improve our lives, our communities, our nation, and our world.

*More Money Than God* - Sebastian Mallaby 2011-05-03 Wealthy, powerful, and potentially dangerous, hedge-fund managers have emerged as the stars of twenty-first century capitalism. Based on unprecedented access to the industry, *More Money Than*

God provides the first authoritative history of hedge funds. This is the inside story of their origins in the 1960s and 1970s, their explosive battles with central banks in the 1980s and 1990s, and finally their role in the financial crisis of 2007-9. Hedge funds reward risk takers, so they tend to attract larger-than-life personalities. Jim Simons began life as a code-breaker and mathematician, co-authoring a paper on theoretical geometry that led to breakthroughs in string theory. Ken Griffin started out trading convertible bonds from his Harvard dorm room. Paul Tudor Jones happily declared that a 1929-style crash would be 'total rock-and-roll' for him. Michael Steinhardt was capable of reducing underlings to sobs. 'All I want to do is kill myself,' one said. 'Can I watch?' Steinhardt responded. A saga of riches and rich egos, this is also a history of discovery. Drawing on insights from mathematics, economics and psychology to crack the mysteries of the market, hedge

funds have transformed the world, spawning new markets in exotic financial instruments and rewriting the rules of capitalism. And while major banks, brokers, home lenders, insurers and money market funds failed or were bailed out during the crisis of 2007-9, the hedge-fund industry survived the test, proving that money can be successfully managed without taxpayer safety nets. Anybody pondering fixes to the financial system could usefully start here: the future of finance lies in the history of hedge funds.

The Stand - Stephen King 2011

A monumentally devastating plague leaves only a few survivors who, while experiencing dreams of a battle between good and evil, move toward an actual confrontation as they migrate to Boulder, Colorado.

*The Book of Basketball* - Bill Simmons 2010-12-07

NEW YORK TIMES

BESTSELLER • The NBA

according to The Sports Guy—now updated with fresh takes on LeBron, the Celtics,

and more! Foreword by Malcom Gladwell • “The work of a true fan . . . it might just represent the next phase of sports commentary.”—The Atlantic Bill Simmons, the wildly opinionated and thoroughly entertaining basketball addict known to millions as ESPN’s The Sports Guy, has written the definitive book on the past, present, and future of the NBA. From the age-old question of who actually won the rivalry between Bill Russell and Wilt Chamberlain to the one about which team was truly the best of all time, Simmons opens—and then closes, once and for all—every major pro basketball debate. Then he takes it further by completely reevaluating not only how NBA Hall of Fame inductees should be chosen but how the institution must be reshaped from the ground up, the result being the Pyramid: Simmons’s one-of-a-kind five-level shrine to the ninety-six greatest players in the history of pro basketball. And ultimately he takes fans to the heart of it all,

Downloaded from  
[ravishingbeasts.com](http://ravishingbeasts.com) on  
by guest

as he uses a conversation with one NBA great to uncover that coveted thing: The Secret of Basketball. Comprehensive, authoritative, controversial, hilarious, and impossible to put down (even for Celtic-haters), The Book of Basketball offers every hardwood fan a courtside seat beside the game's finest, funniest, and fiercest chronicler.

**My Life** - Ben Carson, M.D.  
2015-07-14

Ben Carson grew up in the inner cities of Boston and Detroit with his mother and brother. When his father deserted the family, Ben's mother worked several jobs to support her boys yet worked even harder to encourage them to get an education and follow their dreams. Ben's dreams nearly ended when his anger at being poor and the ridicule of a school mate caused him to snap; he lunged at the boy and cut him with a knife. That brush with attempted murder caused Carson to break down and ask God to turn him around. And turn him around he did. A poor student, Carson

under the guidance of his mother and brother became the best student in his class, his school, and ultimately earned a scholarship to Yale. The next time he used a knife was as a neurosurgeon at Johns Hopkins Hospital where he pioneered surgery techniques that not only saved lives but miraculously gave countless children an amazing quality of life. My Life is the story of a young boy who could have remained trapped in poverty were it not for his mother's tough and sacrificial love, his own perseverance that he learned from her example, and his deep faith that called him to do great and mighty things. This book contains a new chapter about Dr. Carson's philosophies of serving one's country, becoming role models for people with disadvantaged backgrounds, using the talents God has given you, embracing what success really is, and believing, youths and adults alike, that with hard work and perseverance, "you can do it." And on May 4, 2015, Dr. Ben Carson declared himself a

candidate for the Presidency of the United States of America.

*The Uninhabitable Earth* -

David Wallace-Wells

something other than the standard narrative of climate change. . . . He avoids the 'eerily banal language of climatology' in favor of lush, rolling prose."—Jennifer Szalai, The New York Times "The book has potential to be this generation's Silent Spring."—The Washington Post "The Uninhabitable Earth, which has become a best seller, taps into the underlying emotion of the day: fear. . . . I encourage people to read this book."—Alan Weisman, The New York Review of Books

**No Country for Old Men** - Cormac McCarthy 2007-11-29 From the bestselling, Pulitzer Prize-winning author of The Road comes a "profoundly disturbing and gorgeously rendered" novel (The Washington Post) that returns to the Texas-Mexico border, setting of the famed Border Trilogy. The time is our own, when rustlers have given way to drug-runners and small towns have become free-fire zones. One day, a good old boy named Llewellyn Moss finds a pickup truck surrounded by a

bodyguard of dead men. A load of heroin and two million dollars in cash are still in the back. When Moss takes the money, he sets off a chain reaction of catastrophic violence that not even the law—in the person of aging, disillusioned Sheriff Bell—can contain. As Moss tries to evade his pursuers—in particular a mysterious mastermind who flips coins for human lives—McCarthy simultaneously strips down the American crime novel and broadens its concerns to encompass themes as ancient as the Bible and as bloodily contemporary as this morning's headlines. No Country for Old Men is a triumph. Look for Cormac McCarthy's new novel, The Passenger.

**Jesus, M.D.** - David Stevens 2001

An intriguingly fresh glimpse of Jesus from the unique perspective of a contemporary doctor examining and learning from the Great Physician.

in a Christian context, and shows how it worked in the author's own rise from poverty to become a neurosurgeon.

**Real Boys' Voices** - William Pollack 2000-09-20

"In my travels throughout this country, I have discovered a glaring truth: America's boys are absolutely desperate to talk about their lives," says Dr.

William Pollack, author of the bestseller *Real Boys*. Now, in *Real Boys' Voices*, Pollack lets us hear what boys today are saying, even as he explores ways to get them to talk more openly with us. "Boys long to talk about the things that are hurting them—their harassment from other boys, their troubled relationships with their fathers, their embarrassment around girls and confusion about sex, their disconnection from and love for their parents, the violence that haunts them at school and on the street, their constant fear that they might not be as masculine as other boys." In *Real Boys' Voices* we hear, verbatim, what boys from big cities and small towns,

including Littleton, Colorado, have to say about violence, drugs, sports, school, parents, love, anger, body image, becoming a man, and much, much more. *Real Boys' Voices* takes us into the daily worlds of boys not only to show how society's outdated expectations force them to mask many of their true emotions, but also to let us hear how boys themselves describe their isolation, depression, longing, love, and hope. How can you get behind the mask of masculinity many boys wear? How can you tell whether a "bad boy" is actually a "sad boy"—and how do you spot the danger signals of depression? How can you grow closer to the boy you love? Pollack explores how to create safe spaces and engage in "action talk," how to listen so a boy will speak the truth about, and be, himself. In the *real boys' voices* here, boys speak eloquently and truthfully about such topics as shame, bullying and teasing, the pressure to fit in, addictions, how they see the lives of the men they know, the importance

by guest

of their mothers and fathers, their own spiritual and creative experiences, friendships with other boys and with girls, being gay, and coping with divorce and other losses, including the death of a friend or parent. We also hear what boys from Columbine High School and other places say about fear and violence in their lives. Full of insights from and about young and adolescent boys, William Pollack's *Real Boys' Voices* is an important, illuminating, and invaluable book, for boys themselves and for all the people in their lives. From *Real Boys' Voices* " Boys are supposed to shut up and take it, to keep it all in." —Scotty, from a small town in New England " What I hate about this school is that I am being picked on in the halls and just about everywhere else." —Cody, from a suburb in New England " Sometimes people say there are two me's, like I have a dual personality. . . . The public persona is not really who I am. It's a tool . . . to be who everyone wants me to be." —Raphael, from a city in the

West " If you see [abuse] coming, just walk out of the room or walk out of the house or go somewhere, go to a friend's house, go for a walk, take your dog for a run, whatever. Just try to get away from that situation before it actually explodes." —Paul, from a suburb in the West " Maybe a couple of times I used to bully some kids. I haven't bullied anyone since the shooting. I try to be nicer to people even if I don't like them." —John, from Littleton, Colorado

**Take the Risk** - Ben Carson, M.D. 2009-05-26

No risk, pay the cost. Know risk, reap the rewards. In our risk-avoidance culture, we place a high premium on safety. We insure our vacations. We check crash tests on cars. We extend the warranties on our appliances. But by insulating ourselves from the unknown—the risks of life—we miss the great adventure of living our lives to their full potential. Ben Carson spent his childhood as an at-risk child on the streets of Detroit, and today he takes

daily risks in performing complex surgeries on the brain and the spinal cord. Now, offering inspiring personal examples, Dr. Carson invites us to embrace risk in our own lives. From a man whose life dramatically portrays the connection between great risks and greater successes, here are insights that will help you dispel your fear of risk so you can dream big, aim high, move with confidence, and reap rewards you've never imagined. By avoiding risk, are you also avoiding the full potential of your life? The surgery was as risky as anything Dr. Ben Carson had seen. The Bijani sisters—conjoined twins—shared part of a skull, brain tissue, and crucial blood flow. One or both of them could die during the operation. But the women wanted separate lives. And they were willing to accept the risk to reach the goal, even against the advice of their doctors ... As a child on the dangerous streets of Detroit, and as a surgeon in operating theaters around the

world, Dr. Ben Carson has learned all about risk—he faces it on a daily basis. Out of his perilous childhood, a world-class surgeon emerged precisely because of the risks Dr. Carson was willing to take. In his compelling new book, he examines our safety-at-all-costs culture and the meaning of risk and security in our lives. In our 21st-century world, we insulate ourselves with safety. We insure everything from vacations to cell phones. We go on low-cholesterol diets and buy low-risk mutual funds. But in the end, everyone faces risk, like the Bijani twins did with their brave decision. Even if our choices are not so dramatic or the outcome so heartbreaking, what does it mean if we back away instead of move forward? Have we so muffled our hearts and minds that we fail to reach for all that life can offer us—and all that we can offer life? Take the Risk guides the reader through an examination of risk, including:

- A short review of risk-taking in history.
- An assessment of the real costs and rewards of

risk. • Learning how to assess and accept risks. •

Understanding how risk reveals the purpose of your lives.

**Factfulness** - Hans Rosling  
2018-04-03

INSTANT NEW YORK TIMES BESTSELLER “One of the most important books I’ve ever read—an indispensable guide to thinking clearly about the world.” - Bill Gates “Hans Rosling tells the story of ‘the secret silent miracle of human progress’ as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly.” —Melinda Gates “Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases.” - Former U.S. President Barack Obama Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When

asked simple questions about global trends—what percentage of the world’s population live in poverty; why the world’s population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don’t know what we don’t know, and even our guesses are informed by

unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, *Factfulness* is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future.

-- "This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be."  
Hans Rosling, February 2017.

**Science, Evolution, and Creationism** - Institute of Medicine 2008-01-28

How did life evolve on Earth? The answer to this question can help us understand our past and prepare for our future. Although evolution provides credible and reliable answers, polls show that many people turn away from science, seeking other explanations with which they are more comfortable. In the book *Science, Evolution, and Creationism*, a group of experts assembled by the National Academy of Sciences and the Institute of Medicine explain the fundamental methods of science, document the overwhelming evidence in support of biological evolution, and evaluate the alternative perspectives offered by advocates of various kinds of creationism, including "intelligent design." The book explores the many fascinating inquiries being pursued that put the science of evolution to work in preventing and treating human disease, developing new agricultural products, and fostering industrial innovations. The book also presents the

scientific and legal reasons for not teaching creationist ideas in public school science classes. Mindful of school board battles and recent court decisions, *Science, Evolution, and Creationism* shows that science and religion should be viewed as different ways of understanding the world rather than as frameworks that are in conflict with each other and that the evidence for evolution can be fully compatible with religious faith. For educators, students, teachers, community leaders, legislators, policy makers, and parents who seek to understand the basis of evolutionary science, this publication will be an essential resource.

**Ben Carson** - Gregg Lewis  
2010-07-20

Take an up-close and personal look into the lives of some well-known Christians who are successful leaders in their careers. The *Today's Heroes* series features everyday people who overcame great adversity to become modern-day heroes. Kids ages eight to twelve will be inspired by the compelling

stories of courageous individuals who are making a real difference. In *Today's Heroes: Ben Carson*, learn the inspiring story of an inner-city kid who went from 'class dummy' to a world-renowned pediatric neurosurgeon. Many had given up on Ben, including himself, but his mother never did. She encouraged him to do better and reach higher for his dreams. Just when things seemed like they were going well, in a fit of rage, Ben does the unthinkable and nearly kills one his best friends. Read how Ben Carlson was able to accomplish his dream through faith and determination.

*One Nation* - Ben Carson, MD  
2014-05-20

Dear Reader, In February 2013 I gave a speech at the National Prayer Breakfast. Standing a few feet from President Obama, I warned my fellow citizens of the dangers facing our country and called for a return to the principles that made America great. Many Americans heard and responded, but our nation's decline has continued. Today

the danger is greater than ever before, and I have never shared a more urgent message than I do now. Our growing debt and deteriorating morals have driven us far from the founders' intent. We've made very little progress in basic education. Obamacare threatens our health, liberty, and financial future. Media elitism and political correctness are out of control. Worst of all, we seem to have lost our ability to discuss important issues calmly and respectfully regardless of party affiliation or other differences. As a doctor rather than a politician, I care about what works, not whether someone has an (R) or a (D) after his or her name. We have to come together to solve our problems. Knowing that the future of my grandchildren is in jeopardy because of reckless spending, godless government, and mean-spirited attempts to silence critics left me no choice but to write this book. I have endeavored to propose a road out of our decline, appealing to every American's decency and

common sense. If each of us sits back and expects someone else to take action, it will soon be too late. But with your help, I firmly believe that America may once again be "one nation under God, indivisible, with liberty and justice for all." Sincerely, Ben Carson  
*Black Man in a White Coat* - Damon Tweedy 2015-09-08  
"When Damon Tweedy first enters the halls of Duke University Medical School on a full scholarship, he envisions a bright future where his segregated, working class background will become largely irrelevant. Instead, he finds that he has joined a new world where race is front and center. When one of his first professors mistakes him for a maintenance worker, it is a moment that crystallizes the challenges he will face throughout his early career. Making matters worse, in lecture after lecture the common refrain for numerous diseases resounds, "More common in blacks than whites." In riveting, honest prose, *Black Man in a White Coat* examines

the complex ways in which both black doctors and patients must navigate the difficult and often contradictory terrain of race and medicine. As Tweedy transforms from student to practicing physician, he discovers how often race influences his encounters with patients. Through their stories, he illustrates the complex social, cultural, and economic factors at the root of most health problems in the black community. These elements take on greater meaning when Tweedy finds himself diagnosed with a chronic disease far more common among black people. In this powerful, moving, and compassionate book, Tweedy deftly explores the challenges confronting black doctors, and the disproportionate health burdens faced by black patients, ultimately seeking a way forward to better treatment and more compassionate care.- For readers of Atul Gawande, Sandeep Jauhar, Pauline W. Chen, and Henrietta Lacks"-  
Think Like a Monk - Jay Shetty

2020-09-08

Jay Shetty, social media superstar and host of the #1 podcast *On Purpose*, distills the timeless wisdom he learned as a monk into practical steps anyone can take every day to live a less anxious, more meaningful life. When you think like a monk, you'll understand: -How to overcome negativity -How to stop overthinking -Why comparison kills love -How to use your fear -Why you can't find happiness by looking for it -How to learn from everyone you meet -Why you are not your thoughts -How to find your purpose -Why kindness is crucial to success - And much more... Shetty grew up in a family where you could become one of three things—a doctor, a lawyer, or a failure. His family was convinced he had chosen option three: instead of attending his college graduation ceremony, he headed to India to become a monk, to meditate every day for four to eight hours, and devote his life to helping others. After three years, one of his teachers told him that he

would have more impact on the world if he left the monk's path to share his experience and wisdom with others. Heavily in debt, and with no recognizable skills on his résumé, he moved back home in north London with his parents. Shetty reconnected with old school friends—many working for some of the world's largest corporations—who were experiencing tremendous stress, pressure, and unhappiness, and they invited Shetty to coach them on well-being, purpose, and mindfulness. Since then, Shetty has become one of the world's most popular influencers. In 2017, he was named in the Forbes magazine 30-under-30 for being a game-changer in the world of media. In 2018, he had the #1 video on Facebook with over 360 million views. His social media following totals over 38 million, he has produced over 400 viral videos which have amassed more than 8 billion views, and his podcast, On Purpose, is consistently ranked the world's #1 Health and Wellness

podcast. In this inspiring, empowering book, Shetty draws on his time as a monk to show us how we can clear the roadblocks to our potential and power. Combining ancient wisdom and his own rich experiences in the ashram, Think Like a Monk reveals how to overcome negative thoughts and habits, and access the calm and purpose that lie within all of us. He transforms abstract lessons into advice and exercises we can all apply to reduce stress, improve relationships, and give the gifts we find in ourselves to the world. Shetty proves that everyone can—and should—think like a monk.

### **The Time Traveler's Wife -**

Audrey Niffenegger 2021-04-30

A most untraditional love story, this is the celebrated tale of Henry DeTamble, a dashing, adventuresome librarian who inadvertently travels through time, and Clare Abshire, an artist whose life takes a natural sequential course. Henry and Clare's passionate affair endures across a sea of time and captures them in an

impossibly romantic trap that tests the strength of fate and basks in the bonds of love. "Niffenegger's inventive and poignant writing is well worth a trip" (Entertainment Weekly).

*Born to Run* - Christopher McDougall 2011-03-29

NATIONAL BESTSELLER •

The astonishing and hugely entertaining story that completely changed the way we run. An epic adventure that began with one simple question: Why does my foot hurt? "Equal parts quest, physiology treatise, and running history.... The climactic race reads like a sprint.... It simply makes you want to run." —Outside Magazine Isolated by Mexico's deadly Copper Canyons, the blissful Tarahumara Indians

have honed the ability to run hundreds of miles without rest or injury. In a riveting narrative, award-winning journalist and often-injured runner Christopher McDougall sets out to discover their secrets. In the process, he takes his readers from science labs at Harvard to the sun-baked valleys and freezing peaks across North America, where ever-growing numbers of ultra-runners are pushing their bodies to the limit, and, finally, to a climactic race in the Copper Canyons that pits America's best ultra-runners against the tribe. McDougall's incredible story will not only engage your mind but inspire your body when you realize that you, indeed all of us, were born to run. Look for *Born to Run 2*, coming in December!
